Title 3—THE PRESIDENT

Proclamation 3486

MODIFYING THE NATURAL BRIDGES NATIONAL MONUMENT, UTAH

By the President of the United States of America A Proclamation

WHEREAS the Natural Bridges National Monument, Utah, established by Proclamation No. 804 of April 16, 1908, and modified by Proclamation No. 881 of September 25, 1909, and Proclamation No. 1323 of February 11, 1916, was reserved and set apart for the preservation and protection of three extraordinary natural bridges and certain surrounding prehistoric ruins and cave springs; and

WHEREAS it appears that it would be in the public interest to add to such monument approximately five thousand two hundred and thirty-six acres of land near the present boundaries which contain additional cliff-type prehistoric Indian ruins and suitable space for construction of a visitor center, administrative offices, employee residences, utility and maintenance facilities, and a new entrance road; and

WHEREAS it also appears that it would be in the public interest to exclude from the monument approximately three hundred and twenty acres of land, known as Snow Flat Spring Cave and Cigarette Spring Cave, which no longer contain features of archeological value and are not needed for the proper care, management, protection, interpretation, and preservation of the monument:

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, by virtue of the authority vested in me by Section 2 of the Act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), do proclaim as follows:

Subject to any valid interest or rights, the lands now owned by the United States within the exterior boundaries of the following described tracts of land, which include the additional lands needed for the purposes stated above, shall constitute the Natural Bridges National Monument; and lands owned by the State of Utah within such boundaries shall become a part of that monument upon acquisition of title thereto by the United States:

SALT LAKE MERIDIAN, UTAH

- T. 36 S., R. 17 E.
 - sec. 25, E $\frac{1}{2}$ and SW $\frac{1}{4}$
 - sec. 26, SE $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$
 - sec. 34, E $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, and SE $\frac{1}{4}$ SW $\frac{1}{4}$
 - all of sections 35 and 36
- T. 36 S., R. 18 E.
 - all of sections 30 and 31
- T. 37 S., R. 17 E.
 - all of sections 1, 2, and 3
 - sec. 4, E $\frac{1}{2}$
 - sec. 10, E $\frac{1}{2}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$
 - all of section 11
 - sec. 12, NW $\frac{1}{4}$
 - sec. 14, N $\frac{1}{2}$
 - sec. 15, E $\frac{1}{2}$ NE $\frac{1}{4}$
- T. 37 S., R. 18 E.
 - sec. 6, NW $\frac{1}{4}$

The following-described lands in the State of Utah are hereby excluded from the Natural Bridges National Monument:

SALT LAKE MERIDIAN, UTAH

Cigarette Spring Cave

- T. 40 S., R. 19 E.
 - sec. 1, Portions of NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$
(exclusive of lots 5, 6, 7, 8, and 9)
 - sec. 2, Portions of E $\frac{1}{2}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$
(exclusive of lots 5, 6, and 7)

THE PRESIDENT

Snow Flat Spring Cave

T. 39 S., R. 19 E.
sec. 12, SE $\frac{1}{4}$ SE $\frac{1}{4}$
sec. 13, NE $\frac{1}{4}$ NE $\frac{1}{4}$
T. 39 S., R. 20 E.
sec. 7, SW $\frac{1}{4}$ SW $\frac{1}{4}$
sec. 18, NW $\frac{1}{4}$ NW $\frac{1}{4}$

The public lands hereby excluded from the monument shall not be subject to application, location, settlement, entry, or other forms of appropriation under the public-land laws until further order of an authorized officer of the Department of the Interior.

The Natural Bridges National Monument shall be administered pursuant to the Act of August 25, 1916, 39 Stat. 535 (16 U.S.C. 1-3), and acts supplementary thereto and amendatory thereof.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any of the features or objects of this monument and not to locate or settle upon any of the lands reserved by this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this fourteenth day of August in the year of our Lord nineteen hundred and sixty-two, and
[SEAL] of the Independence of the United States of America the one hundred and eighty-seventh.

JOHN F. KENNEDY

By the President:

DEAN RUSK,
Secretary of State.

Rules and Regulations

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 728—WHEAT

Subpart—1963-64 Marketing Year

COUNTY ACREAGE ALLOTMENTS FOR 1963 CROP OF WHEAT

§ 728.1306 Basis and purpose.

The county acreage allotments for 1963 crop wheat contained herein have been determined under section 334 of the Agricultural Adjustment Act of 1938, as amended. The purpose is to apportion among the counties of each State the respective State wheat acreage allotments for 1963 as established by the proclamation dated June 26, 1962 (27 F.R. 6314).

Section 334(b) of the Agricultural Adjustment Act of 1938, as amended, provides that the State acreage allotments for wheat, less a reserve of not to exceed 3 per centum thereof for apportionment to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made, shall be apportioned among the counties in the State on the basis of the acreage seeded for the production of wheat during the 10 calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period and for the promotion of soil-conservation practices. The applicable 10-year period used in apportioning the 1963 State wheat acreage allotments among the counties in the respective States included the years 1952 to 1961 inclusive.

Section 301(c) of the act requires that the latest available statistics of the Federal Government be used in making the apportionments required to be made under the act. Estimates of county acreage seeded to wheat made by the Statistical Reporting Service of the Department of Agriculture do not meet the definitions of wheat acreage as contained in the regulations pertaining to 1963 wheat acreage allotments and marketing quotas. Such regulations provide that: (1) Wheat seeded in mixtures with other small grains will be counted as wheat acreage if the harvested mixture in counties other than approved wheat mixture counties is classified as wheat or as mixed grain under the official grain standards. In approved wheat mixture counties a mixture of wheat and other small grains

will not be counted as wheat if the mixture contains (a) when seeded less than 50 percent of wheat by weight and (b) when harvested produced less than 50 percent by weight; (2) wheat used for cover crop will not be counted as wheat acreage in any county; and (3) the transferring of farm records of wheat acreage across county lines will be permitted for administrative purposes. For these reasons acreage data obtained from farm surveys by ASC county committees and from farm acreage reports in the years 1952 through 1961 were used as basic data in lieu of estimates made by the Statistical Reporting Service. It was necessary to adjust the total seeded acreage of wheat for 1954 in the States of Minnesota, Montana, North Dakota, and South Dakota in order that the acreage seeded to durum wheat in excess of the official farm acreage allotments under the provisions of Public Law 290, 83d Congress, would not be considered in establishing future State, county, and farm acreage allotments. For 1955, 1956, and 1957, the data compiled from the farm survey excluded the acreage of durum wheat seeded in excess of the regular allotment under the provisions of Public Law 8, 84th Congress, Public Law 431, 84th Congress, and Public Law 85-13, respectively. Therefore, no further adjustment was necessary for this factor for these years.

From a survey conducted by the Agricultural Stabilization and Conservation Service in 1953, data for 1952 and 1953 with respect to the acreage seeded to wheat for harvest as grain, the acreage of mixtures of wheat and other small grains, and the acreage of wheat used as a cover crop were compiled as separate items. Such items were included or excluded as required to conform to the wheat acreage definition set forth in the regulations. The acreage data obtained from farm acreage reports for 1954 through 1961 were compiled in accordance with the definition of wheat acreage as set forth in the regulations and were used as compiled.

Credit for wheat diversion in 1954 and 1955 was computed on a farm basis rather than on a county basis and was determined as follows: For each year, if the farm wheat acreage allotment was exceeded, no credit for diversion was allowed. If the allotment was not knowingly exceeded and the wheat acreage was 90 per centum or more of the farm allotment, the diversion credit allowed was the difference between the base acreage and the wheat acreage. If the wheat acreage was less than 90 per centum of the allotment, the maximum diversion credit for the farm was determined by dividing the wheat acreage by 90 per centum of the county proration factor and subtracting from this result the wheat acreage.

Credit for wheat diversion in 1959 was computed on a farm basis in a similar manner as for 1954 and 1955, except that

75 per centum was used in all computations instead of 90 per centum.

For 1954, the sum of all such computed diversion credits were totaled to obtain the county diversion credit for wheat. For the States of Minnesota, Montana, North Dakota, and South Dakota, the acreages of Durum Wheat (Class II), grown within the allotment increases made for 1954 under Public Law 290, 83d Congress, were subtracted from the 1954 wheat acreage adjusted as described above so as to conform to language in this act providing that such acreage shall not be considered in the determination of future allotments.

The acreages for 1955 and 1956, including diversion credit on a farm basis, were obtained as the sum of the acreages recorded on the farm record card in 1960 for each such year. The acreage thus used for 1955 and 1956 included the following as wheat acreage: (1) Acreage actually seeded on the farm and classified as wheat under marketing quota regulations, less the acreage of Durum Wheat (Class II) grown within the allotment increases under Public Law 8, 84th Congress and Public Law 431, 84th Congress; (2) the acreage diverted from the production of wheat on complying farms; and (3) the acreage released for reapportionment to other farms under regulations issued by the Secretary governing the temporary release and reapportionment of such acreage.

Adjustments for abnormal weather conditions in county wheat acreage estimates were considered only for those counties for which the ASC State committees had determined that the acreage classified as wheat, including acreage diverted from wheat, for the years 1952 through 1956 was below normal, and the Director of the Grain Division had approved such determinations. Counties thus approved which had wheat acreage plus diverted acreage for the year in question lower than the level represented by 90 percent of the most recent previous normal year's acreage or 110 percent of the previous 10-year average wheat acreage plus diverted acreage, whichever was less, were increased to such level as an adjustment for abnormal weather. Determinations of such adjusted acreages made for years prior to 1957 were not revised even though minor revisions were made in acreages of the "normal" years as a result of census revisions. No adjustments for abnormal weather conditions were made in county wheat acreages for the years 1957 through 1961, since the application of Public Law 86-172 and Public Law 86-793 minimized or eliminated the need for weather adjustments for such years.

The 1957 wheat acreage data as compiled from ASCS statistics included the following as wheat acreage: (1) Acreage actually seeded on the farms and classified as wheat under marketing quota regulations, less the acreage of Durum Wheat (Class II) grown within the al-

lotment increases under Public Law 85-13; (2) the amount by which the acreage on a farm was less than wheat acreage allotment, except for those farms underplanting the allotment for the purpose of depleting stored excess; (3) the acreage diverted from the production of wheat on complying farms; and (4) the acreage released for reapportionment to other farms under regulations issued by the Secretary governing the temporary release and reapportionment of such acreage. Use of this 1957 acreage data precluded the necessity of making any adjustments for abnormal weather conditions.

Section 334 of the Agricultural Adjustment Act of 1938, as amended, was amended by Public Law 85-203, to add the following:

Notwithstanding any other provision of law, no acreage in the commercial wheat-producing area seeded to wheat for harvest as grain in 1958 or thereafter in excess of acreage allotments shall be considered in establishing future State and county acreage allotments except as prescribed in the provisos to the first sentence of subsection (a) and (b) respectively, of this section.

Under the provisions of this amendment, only the allotment can be counted as wheat acreage history on any farm on which the allotment is overseeded. The 1958 wheat acreage data compiled from Agricultural Stabilization and Conservation Service statistics was the sum of the following:

(1) The wheat acreage allotment for all farms on which the allotment was overseeded;

(2) The wheat base acreage on all farms complying with the wheat acreage allotment, except those farms underplanting the allotment for the purpose of depleting stored excess; and

(3) For those farms underplanting the allotment for the purpose of depleting stored excess, the acreage actually classified as wheat under marketing quota regulations, plus the diversion credit determined by multiplying the acreage seeded by the reciprocal of the county proration factor.

Section 334 of the Agricultural Adjustment Act of 1938, as amended, was amended by Public Law 86-419, to add the following:

(d) For the purpose of subsections (a), (b), and (c) of this section, any farm (1) to which a wheat marketing quota is applicable; (2) on which the acreage planted to wheat exceeds the farm wheat acreage allotment; and (3) on which the marketing excess is zero, shall be regarded as a farm on which the entire amount of the farm marketing excess has been delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone the payment of the penalty. This subsection shall be applicable in establishing the acreage seeded and diverted and the past acreage of wheat for 1959 and subsequent years in apportionment of allotments beginning with the 1961 crop of wheat. For the purpose of clause (1) of this subsection, a farm with respect to which an exemption has been granted under section 335(f) for any year shall not be regarded as a farm to which a wheat marketing quota is applicable for such year, even though such exemption should become null and void because of a violation of the conditions of the exemption.

Under the provisions of this amendment and under the exception as prescribed in the provisos to Public Law 85-203, only the allotment can be counted as wheat acreage history on any farm on which the allotment is overseeded, unless the entire amount of the marketing quota excess is stored or delivered to the Secretary to avoid or postpone the payment of penalty, and none of such excess has been depleted, or the excess has been adjusted to zero because of underproduction.

The 1959, 1960, and 1961 wheat acreage data compiled from Agricultural Stabilization and Conservation Service statistics was the sum of the following:

(1) The wheat acreage allotment for all farms on which the allotment was overseeded, except those farms on which the entire amount of the marketing excess was stored or delivered to the Secretary to avoid or postpone the payment of penalty, and none of such stored excess has been depleted, or the marketing excess was adjusted to zero because of underproduction;

(2) The wheat base acreage on all farms on which the allotment was overseeded and on which the entire amount of the marketing excess was stored or delivered to the Secretary to avoid or postpone payment of penalty and none of such stored excess has been depleted, or the farm marketing excess was adjusted to zero because of underproduction;

(3) The wheat base acreage on all farms complying with the wheat acreage allotment except those farms underplanting the allotment for the purpose of depleting stored excess of a prior crop and except for 1960 and 1961, those farms other than federally owned farms on which the acreage classified as wheat acreage was less than 75 per centum of the farm wheat acreage allotment for the year involved or for either of the two preceding years;

(4) For 1959 those farms underplanting the allotment for the purpose of depleting stored excess, the acreage actually classified as wheat under 1959 marketing quota regulations in this part, multiplied by the reciprocal of the county allotment apportionment factor; and

(5) For 1960 and 1961, for any old farm other than a federally owned farm on which less than 75 per centum of the farm acreage allotment for the year involved or either of the two preceding years was actually planted to wheat or regarded as planted to wheat under the Soil Bank Act and the Great Plains program, the smaller of the farm base acreage for 1960 or 1961, whichever is applicable, or the acreage obtained by multiplying the wheat acreage for such year by the county wheat diversion factor, which was the reciprocal of a decimal fraction equal to 75 per centum of the county proration factor for such year.

To determine for each county the acreage seeded for the production of wheat during the ten calendar years immediately preceding the year 1962, in addition to the foregoing adjustments for diverted acres and abnormal weather, the following additional adjustments for trends,

abnormal weather, and promotion of soil-conservation practices were made:

(1) The simple average of the annual county wheat acreage, adjusted as described above, for the 10-year period, 1952-61 inclusive, was determined.

(2) The simple average of the annual wheat acreages, adjusted as described above, for the 5-year period 1957-61, was determined.

(3) A simple average of the 10-year average and the 5-year average was determined giving equal weight to each. This acreage became the preliminary adjusted county base acreage of wheat.

(4) A preliminary adjustment for trend was made by deducting from the county wheat acreage history, as computed in accordance with the preceding paragraphs, the wheat acreage history for the years 1955 through 1958 for those farms which have been removed from agricultural production due to the encroachment of urban and industrial development. Such adjustments were not made for 1959, 1960, and 1961, because the farm data for these years reflected such adjustments.

(5) As a further adjustment for trend and to give greater effect to the sharp changes in county seeded acreages of wheat during recent years, the preliminary adjusted county base acreages were limited to an acreage of not less than 80 percent nor more than 120 percent of the 4-year (1958-61) average acreage.

Since the farm data for the years 1955 through 1961 as currently constituted on the farm record cards was used in determining the county base acres, no adjustments were necessary for transfers of farms into or out of the county.

If the sum of the county base acreages thus established differed from the State base established for the apportionment of the national allotment to States, all preliminary county base acres were factored pro rata so that the sum of the county base acres equaled the State base acres.

The resultant preliminary 1963 county base acreages as adjusted for trend and limited were reviewed by the respective State Agricultural Stabilization and Conservation Committees and appropriate adjustments were made to give greater effect to actual trends in county wheat history acreages and for the promotion of soil-conservation practices. Only downward adjustments were permitted for the promotion of soil conserving practices. The maximum acceptable adjustment for any county was limited to three percent of the preliminary base acreage for the county or 200 acres, whichever was the larger. All adjustments in base acres were either counterbalancing or were factored pro rata so that the sum of the county base acres after such adjustments were the same as prior to the adjustments. The resultant figure was the final 1963 county wheat base acreage.

The county wheat acreage allotments for 1963 were determined by apportioning pro rata to the counties, on the basis of the final 1963 county base acreages, the 1963 State wheat acreage allotment less (1) a reserve acreage for new farms in an amount not to exceed three per

centum of the State acreage allotment, and (2) a reserve acreage for appeals, correction of errors and missed farms.

Section 334 (a) of the Agricultural Adjustment Act of 1938, as amended, states in part, "The national acreage allotment for wheat, less a reserve of not to exceed one per centum thereof for apportionment as provided in this subsection, shall be apportioned by the Secretary among the several States * * *. The reserve acreage set aside herein for apportionment by the Secretary shall be used to make allotments to counties, in addition to the county allotments made under subsection (b) of this section, on the basis of the relative needs of counties for additional allotment because of reclamation and other new areas coming into the production of wheat during the ten calendar years ending with the calendar year in which the national acreage allotment is proclaimed."

A reserve acreage of 20,000 acres was withheld for this purpose. In order for a county located in the commercial wheat-producing area to receive additional allotment acreage under this provision, the State committee was required to establish that a definite delineable area of the county had gone into the production of wheat during the ten calendar years ending with 1962. The amount of additional allotment apportioned to counties under this provision was the sum of the acreages determined under items (1) and (2) below, but in no case was the amount of the apportionment less than an amount obtained by subtracting the regular 1963 county allotment from 50 percent of the figure obtained by averaging the 4-year (1955-58) average wheat acreage history for the county with the 1959, 1960, and 1961 county wheat acreage history, giving 70 percent weight to the 4-year average wheat acreage history and 10 percent weight to the history acreages for each of the years 1959, 1960, and 1961.

(1) The acreages apportioned by the State committee from the State reserve for new farms in the delineable area for the 1962 crop year, plus

(2) The amount by which the 1963 regular county allotment was less than the 1962 final county allotment adjusted to give compensating effect to the loss of county wheat acreage history in 1960 and 1961 which was reflected in the 1963 regular county allotment. Such adjustment was made by deducting from the 1962 final county allotment the product of 30 percent (the weight applicable to the two years 1960 and 1961 since the weight given to each of the last five years in the 10-year base period is 15 percent) of the acreage by which the 1961 county wheat acreage history was less than the 1959 county wheat acreage history multiplied by the 1963 State allotment apportionment factor.

In the two States, Alabama and Mississippi, which were added to the commercial wheat-producing area in 1959, and in Arizona which was added to the commercial wheat-producing area in 1960, the above-mentioned apportionment procedure was not used because county allotments were not established for any year between 1954 and the year

the State was brought into the commercial wheat-producing area. Since in each of these three States it was determined that virtually every county now producing wheat came into the production of wheat during the past ten years, all counties in such States were treated alike. Sufficient acreage out of the national reserve was apportioned to counties in each of these States which would bring the 1963 county wheat acreage allotment up to a level equal to an acreage obtained by applying the national proration factor of .68233 to an adjusted base determined for the county which was obtained by averaging the 4-year (1955-58) average historical base acreage for the county with the 1959, 1960, and 1961 county wheat acreage history, giving 70 percent weight to the 4-year average historical base acreage and 10 percent weight to the history acreages for each of the years, 1959, 1960, and 1961. No apportionment of acreage from the national reserve was made to those counties in which the regular allotment for 1963 exceeded the allotment computed in accordance with the formula as outlined above.

The total acreage apportioned to all counties from the national reserve was 8,062 acres. The balance of the reserve is being held for possible future requirements.

The tables contained in § 728.1307 hereof show the county base acreages and the apportionment of the 1963 State wheat acreage allotments and national reserve acreage among the counties. The reserve acreage for new farms and the reserve acreage for appeals, corrections of errors and missed farms withheld from the State allotment are listed

at the end of the allotment tabulation for each State. The reserve acreage withheld by county committees for appeals, correction of errors, and missed farms prior to apportioning the county allotment to individual farms is indicated in the appropriate column on the tabulation.

The Agricultural Adjustment Act of 1938, as amended by Public Law 87-540, approved July 19, 1962, requires the holding of a referendum of wheat producers who will be subject to the national marketing quota proclaimed for the 1963-64 marketing year not later than August 31, 1962, to determine whether such producers favor such marketing quota and requires, insofar as practicable, the mailing of notices of farm acreage allotments to farm operators in sufficient time to be received prior to the referendum. Farm acreage allotments cannot be established until the county acreage allotments herein have been issued. In view of the limited time before the latest date which may be legally established for the referendum and the need for county committees to have county acreage allotments as soon as possible in order that farm acreage allotments may be properly determined and communicated to farm operators, it is hereby found that with respect to this document compliance with the notice, public procedure, and effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest, and this document shall become effective upon filing with the Director, Office of the Federal Register.

§ 728.1307 Wheat acreage apportioned to counties for 1963.

Wheat Acreage Apportioned to Counties for 1963

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 26]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.326 Valencia Orange Regulation 26.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 16, 1962.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Ari-

zona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., August 19, 1962, and ending at 12:01 a.m., P.s.t., August 26, 1962, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
 - (ii) District 2: 400,000 cartons;
 - (iii) District 3: Unlimited movement.
- (2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 17, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and
Vegetable Division, Agricultural
Marketing Service.

[F.R. Doc. 62-8419; Filed, Aug. 17, 1962;
11:24 a.m.]

[Lemon Reg. 35]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.335 Lemon Regulation 35.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department

after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 14, 1962.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., August 19, 1962, and ending at 12:01 a.m., P.s.t., August 26, 1962, are hereby fixed as follows:

- (i) District 1: Unlimited movement;
 - (ii) District 2: 325,500 cartons;
 - (iii) District 3: Unlimited movement.
- (2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 16, 1962.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable
Division, Agricultural Mar-
keting Service.

[F.R. Doc. 62-8379; Filed, Aug. 17, 1962;
8:50 a.m.]

[Avocado Order 1, Amdt. 2]

PART 915—AVOCADOS GROWN IN SOUTH FLORIDA

Limitation of Shipments

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective, as hereinafter set forth,

of Amesbury, Ipswich, Newbury, Rowley, Salisbury, and West Newbury in Essex County, Massachusetts; and Ashabula and Fortage Counties, Ohio; and by de- letting Genesee County, Michigan, by reason of my determination that such county no longer meets the standard necessary for continued designation as a redevelopment area due to the im- provement in its economic circum- stances, pursuant to sections 3 and 13 of the Area Redevelopment Act and 13 CFR 302.50 of these regulations; and by effecting certain other minor, technical, conforming changes and corrections, so that, as amended, the complete listing of areas designated under section 5(a) of the Area Redevelopment Act for those States affected by this amendment shall read as follows:

Chapter III—Area Redevelopment Administration, Department of Commerce
PART 302—DESIGNATION OF REDEVELOPMENT AREAS

Part 302 of Chapter III, as published in the FEDERAL REGISTER of October 24, 1961 (26 F.R. 9933-9943), as amended, is hereby further amended in the follow- ing respects:

1. Section 302.10 *List of areas of Sub- part B—Areas Designated Under section 5(a) of the Act*, as amended, is further amended by adding Calhoun and Ouachita Counties, Arkansas; Coles and Cumberland Counties, Illinois; Boyle, Garrard, Lincoln and Mercer Counties, Kentucky; City of Newburyport, Towns

§ 302.10 List of areas.

* State and labor market area ¹	* Area definition	* *

Kentucky:		
Corbin-----	Clay, Knox, Laurel, and Whitley Counties.	
Danville-----	Boyle, Garrard, Lincoln, and Mercer Counties.	
Elizabethtown-----	Grayson, Hardin, Larue, and Meade Counties.	
Hazard-----	Breathitt, Letcher, and Perry Counties.	
Hopkinsville-----	Caldwell, Christian, Todd, and Trigg Counties.	
Madisonville-----	Hopkins, Muhlenberg, and Webster Counties.	
Middlesboro-Harian-----	Bel, Harlan, and Leslie Counties.	
Morehead-Grayson-----	Cartel, Elliott, Greenup, and Rowan Counties.	
Paducah-----	Ballard, Graves, McCracken, and Marshall Counties.	
Paintsville-Prestonsburg-----	Floyd, Johnson, Knott, Magoffin, and Martin Counties.	
Pikeville-Williamson-----	Pike County, Kentucky; Mingo County, West Virginia.	
Richmond-----	Estill, Jackson, Madison, and Rockcastle Counties.	
Massachusetts:		
Fall River-----	City of Fall River, Towns of Somerset, Swansea, and Westport in Bristol County, Massachusetts; Town of Tiverton in Newport County, Rhode Island.	
Lowell-----	City of Lowell, Towns of Billerica, Chelmsford, Dracut, Tewksburg, and Tyngsborough in Middlesex County.	
New Bedford-----	City of New Bedford, Towns of Achushnet, Dart- mouth, and Fairhaven in Bristol County; Towns of Marion and Mattapoisett in Plymouth County.	
Newburyport-----	City of Newburyport, Towns of Amesbury, Ipswich, Newbury, Rowley, Salisbury, and West Newbury in Essex County.	

See footnote at end of table.

circumstances, for preparation of such effective time.

(b) It is, therefore, ordered that the provisions of paragraph (b) of § 915.301 (27 F.R. 5135, 6705) are hereby further amended as follows:

1. In Table I, certain of the dates and minimum weights and diameters appli- cable to the Waldin variety of avocados are revised so that after such revision the relevant portion of such Table I reads as follows:

Variety	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)
Waldin-----	8-13-62	16 oz. 3 3/8 in.	8-27-62	14 oz. 3 3/8 in.	9-10-62
					12 oz. 3 3/8 in.
					9-24-62

(c) The provisions of this amendment shall become effective at 12:01 a.m., e.s.t., August 20, 1962.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C 601-674)

Dated: August 16, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and
Vegetable Division, Agricul-
tural Marketing Service.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 13]

PART 121—SMALL BUSINESS SIZE STANDARDS

Definition of Small Business for Cotton Broad-Woven Fabrics Manufac- turers for the Purpose of SBA Busi- ness Loans

On April 11, 1962, there was published in the FEDERAL REGISTER (27 F.R. 3470) a notice that the Administrator of SBA proposed to amend the definition of small business for manufacturers of cot-

ton broad-woven fabrics for the purpose of receiving SBA business loans. All interested persons were given the oppor- tunity to present their comments or sug- gestions pertaining to the amendment of the definition of small business for man- ufacturers of cotton broad-woven fab- rics to the Office of Small Business Size Standards within 30 days after publica- tion in the FEDERAL REGISTER.

After consideration of all such relevant matters as were presented by interested persons regarding the proposal, the amendment set forth below is hereby adopted.

The Small Business Size Standards Regulation (Revision 2) (26 F.R. 812), as amended (26 F.R. 1441, 1983, 2778, 3064, 5708, 6642, 8592, 10633, 10634, 12069; 27 F.R. 5653, 6655) is hereby fur- ther amended by deleting from "Sched- ule A" of this Part, under the heading "Textile Mill Products" the item "2233—Fabrics, cotton broad-woven— 750," and substituting in lieu thereof "2233—Fabrics, cotton broad-woven— 1000."

Effective date: This amendment shall become effective upon publication in the FEDERAL REGISTER.

Dated: August 9, 1962.

JOHN E. HORNE,
Administrator.

[F.R. Doc. 62-8324; Filed, Aug. 17, 1962; 8:49 a.m.]

State and labor market area¹

North Adams.....

City of North Adams, Towns of Adams, Clarksburg, Florida, New Ashford, Savoy, and Williamstown in Berkshire County; Town of Monroe in Franklin County.

Ohio:

Ashtabula-Conneaut Ashtabula County.
Athens-Logan-Nelsonville Athens, Hocking, and Vinton Counties.
Batavia-Georgetown-West Union... Adams, Brown, and Clermont Counties.
Cambridge Guernsey and Noble Counties.
Kent-Ravenna Portage County.
Portsmouth-Chillicothe Jackson, Pike, Ross, and Scioto Counties.

NOTE 1. The labor market areas' geographic boundaries which were under review, as indicated in the FEDERAL REGISTER of October 24, 1961 (26 F.R. 9933-9943, at 9936-9937), are no longer under review. These geographic boundaries were adopted finally as they originally appear in the FEDERAL REGISTER of October 24, 1961.

(Secs. 5, 12, 75 Stat. 48, 55)

2. Section 302.40 List of areas of Subpart D—Areas Designated Under section 5(b) of the Act, as amended, is further amended by adding Bulter, Cherokee, DeKalb, Jackson, Limestone, Shelby, and Winston Counties, Alabama; Franklin, Lafayette, and Polk Counties, Arkansas; Siskiyou County, California; Gordon and Hart Counties, Georgia; Boundary County, Idaho; Calhoun, Jersey, and Marshall Counties, Illinois; Martin County, Indiana; Breckinridge and Russell Counties, Kentucky; Concordia, Catahoula, Livingston, St. John the Baptist, and St. Martin Parishes, Louisiana; Hancock, Knox,¹ and Lincoln¹ Counties, Maine; Calvert County, Maryland; City of Gloucester, and Towns of Essex and Rockport in Essex County, Massachusetts; Crawford, Gratiot, Presque Isle, and Sanilac Counties, Michigan; Douglas County, Minnesota; Hancock County, Mississippi; Grafton County, New Hampshire; Schoharie County, New York; Northhampton and Chowan Counties, North Carolina; Greer, Love, and Nowata Counties, Oklahoma; Smith County, Tennessee; Falls County, Texas; Essex, Orleans, and Caledonia Counties, Vermont; Independent City of Galax, and Lancaster, Northumberland, Richmond, and Westmoreland Counties, Virginia; Fort Peck Indian Reservation (Roosevelt County), Montana; and Pyramid Lake Indian Reservation (part of Washoe County), Nevada; and by deleting Calhoun and Ouachita Counties, Arkansas, by shifting them to § 302.10 of these regulations by reason of designating them under section 5(a) of the Area Redevelopment Act; and by deleting Walker County, Texas, by reason of my determination that such county no longer meets the standard necessary for continued designation as a redevelopment area, based on the resolution requesting termination as a redevelopment area, received from the governing body of each county contained in the area and on the concurring recommendation received from the U.S. Department of Agriculture, all pursuant to section 13 of the Area Redevelopment Act and section 302.51 of these regulations; and by effecting certain other minor, technical, conforming changes and corrections, so that, as amended, the complete listing

NOTE 1. Only parts of Knox and Lincoln Counties were listed as redevelopment areas in the FEDERAL REGISTER of March 8, 1962 (27 F.R. 2241-2243, at 2242). The entire counties are now redevelopment areas.

of areas designated under section 5(b) of the Area Redevelopment Act for those States affected by this amendment shall read as follows:

(Secs. 5, 12, 75 Stat. 48, 55)

3. Section 302.50 *General* of Subpart E—Termination of Redevelopment Areas is amended by deleting from that section the phrase "the disqualifying reduction in unemployment shall be evidenced for a continuous period of not less than six months" and inserting in its place the phrase "he shall determine that there has occurred a significant reduction in the rate of unemployment in such redevelopment area since it was last so designated as a redevelopment area and that such reduction in the rate of unemployment has continued for a reasonable period of time.", so that § 302.50, as amended herein will read as follows:

§ 302.50 *General*.

The Administrator will terminate the designated status of areas as redevelopment areas when he shall determine that there has been such improvement in the economic circumstances of the area that it no longer meets the standards for designation as a redevelopment area; but with respect to areas designated under standards of unemployment the Administrator shall not terminate designation unless he shall determine that there has occurred a significant reduction in the rate of unemployment in such redevelopment area since it was last so designated as a redevelopment area and that such reduction in the rate of unemployment has continued for a reasonable period of time.

(Secs. 12, 13, 75 Stat. 55, 57)

In accordance with the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 1003) it has been found that notice and hearing on the foregoing §§ 302.10, 302.40 and 302.50 of Chapter III of Title 13 of the Code of Federal Regulations is unnecessary for the reason that the matters herein relate to agency management and benefits, and/or for the reason that because of the nature of these rules, such notice and hearing would serve no useful purpose. The provisions of this chapter are

effective upon publication in the *FEDERAL REGISTER*.

Dated: July 27, 1962.

WILLIAM L. BATT, JR.,
Area Redevelopment Administrator.

[F.R. Doc. 62-8302; Filed, Aug. 17, 1962;
8:45 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Reg. Docket No. 1039; Amdt. 42-42]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Flight Time Limitations for Flight Engineers on Large Airplanes

The Federal Aviation Agency published as a notice of proposed rule making (27 F.R. 697) and circulated as Civil Air Regulations Draft Release No. 62-1 dated January 17, 1962, a proposal to amend Part 42 of the Civil Air Regulations to specify flight time limitations applicable to flight engineers engaged in other than overseas and international operations. The reasons therefor were set forth fully in the notice of proposed rule making.

The comments received in response to this draft release indicated general concurrence with the proposal to prescribe flight and duty time limitations in Part 42 for flight engineers in addition to those currently prescribed in the air carrier operations specifications for overseas and international operations. In some instances differences of opinion were expressed with respect to the substance of the proposed rules. Some comments recommended the adoption of more stringent rules on duty time while others recommended more liberal allowances for both flight and duty times for particular operations. In addition, numerous other recommendations were made with respect to changing the flight time limitations applicable to air carrier flight crewmembers which transcended the scope of the proposal contained in Draft Release 62-1 and involved substantive changes of such a nature as to generally affect all flight and duty time limitations applicable to all flight crewmembers. The Agency has undertaken a project to review and re-evaluate all of the existing flight and duty time limitations applicable to air carrier flight crewmembers. Accordingly, all comments which were received in response to Draft Release 62-1 which concern matters beyond the scope of the proposal will be fully considered in the course of this re-evaluation.

The draft release made mention of the fact that some carriers may wish to include in the flight crew one or more airmen who are appropriately qualified to serve either as a pilot or as a flight engineer in the course of a flight. The purpose of such statement was solely to prevent any misunderstanding of these rules with regard to the flight time limitations

applicable to such airmen. In view of the comments received on this subject, it is reiterated that these rules would not preclude such utilization of an airman as long as the combined total of the scheduled flight deck duty of such airman as a flight engineer and his scheduled flight deck duty as a pilot or other flight crewmember does not exceed the applicable flight time limitations.

Interested persons have been afforded an opportunity to participate in the making of this regulation (27 F.R. 687), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) is hereby amended as follows, effective September 17, 1962:

1. By redesignating § 42.49 as § 42.50.
2. By adding a new § 42.49 to read as follows:

§ 42.49 Flight time limitations for flight engineers on large airplanes.

The flight time limitations prescribed in § 42.48 (a) and (b) shall apply to an airman serving as a flight engineer except that when two or more airmen serve as flight engineers in a flight crew containing three or more pilots, the flight time limitations prescribed in § 42.48 (d) shall apply in lieu of those in § 42.48 (b). (Secs. 313(a), 601, 604; 72 Stat. 752, 775, 778; 49 U.S.C. 1354, 1421, 1424)

Issued in Washington, D.C., on August 10, 1962.

HAROLD W. GRANT,
Acting Administrator.

[F.R. Doc. 62-8304; Filed, Aug. 17, 1962;
8:45 a.m.]

Chapter II—Civil Aeronautics Board

SUBCHAPTER F—POLICY STATEMENTS

[Reg. Policy Statement No. 15]

PART 399—STATEMENTS OF GENERAL POLICY

Policy Applicable to Public Bodies and Civic Organizations Participating in Route Proceeding Hearings

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 15th day of August 1962.

The Board, by publication in 26 F.R. 9240, and by circulation of Procedural Draft Release, PDR-9, Docket 13060, proposed an amendment to Part 302 (14 CFR Part 302) of its rules of practice pertaining to the participation of public bodies and civic groups in route proceedings conducted pursuant to section 401 of the Act. Upon due consideration of all comments received in response to the notice, the Board has decided to adopt the substance of the proposal as a statement of policy.

As a general rule, substantial differences of interest between public and/or civic bodies representing the same community do not exist. Therefore, representation of the community by one such body usually effectuates adequate representation of the interest of all others. This is not usually the case as between two or more air carrier parties. It therefore is proper and expedient that public

and civic bodies representing the same area or community should consolidate their presentation to the Board. We have modified the notice so that this policy will also apply to the presentations of oral arguments.

We are also adopting the provision that public bodies and civic organizations should keep to a minimum the number of witnesses used to present the factual evidence in support of the community's position.

It also appears to the Board, in light of experience, that the policy of excluding immaterial, irrelevant and unduly repetitious evidence, which is enjoined upon the Board by section 7(c) of the Administrative Procedure Act, in the usual case precludes admission of certain types of evidence often offered by public or civic bodies to establish the level of economic activity in their communities which have been found lacking in substantial probative value respecting the air traffic generating capacity of such communities. Such evidence should normally be excluded.

The instant policy statement will implement the principles against undue duplication and repetition of materials contributed to the record by formal and informal interveners. It is expected that publication of this policy statement will greatly reduce the number of instances in which immaterial or unduly repetitious evidence is made part of the record. The Board also anticipates that public and civic bodies will cooperate in consolidating their presentations except to the extent that there are genuine and substantial differences of interest between them.

Since this rule is not a substantive rule, it may be made effective upon less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends its statements of general policy, 14 CFR Part 399, effective August 18, 1962, by adding thereto a new § 399.39 to read:

§ 399.39 Presentations of public and civic bodies in route proceedings.

For the purpose of implementing the Board's policy to provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence and otherwise to expedite route proceedings, and in light of experience, the following guidelines are hereby established.

(a) Public and civic bodies which represent the same geographic area or community should consolidate their presentation of evidence, briefs and oral argument to the examiner and the Board;

(b) A public body or a civic organization, or several such bodies or organizations whose presentation of evidence is consolidated, should keep to a minimum the number of witnesses used to present the factual evidence in support of the community's position;

(c) Exhibits offered in evidence by a public body or civic organization should be limited to evidence of the economic characteristics of the community and area involved, data as to community of interest and traffic, evidence with respect to the sufficiency of existing service, and airport data, and should not include data

relating to number of electricity, water and gas meters, telephones, schools, freight car loadings, building permits, sewer connections, or volume of bank deposits in the community.

(Sec. 204(a) of the Federal Aviation Act of 1958, 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 1001 of the Act, 72 Stat. 788; 49 U.S.C. 1481 and sec. 3(a) of the Administrative Procedure Act, 60 Stat. 238; 5 U.S.C. 1002)

By the Civil Aeronautics Board.

[SEAL] MABEL McCART,
Acting Secretary.

8:50 a.m.]

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1343; Amdt. 476]

PART 507—AIRWORTHINESS DIRECTIVES

General Dynamics/Convair Model 30 Series Aircraft

Reports have been received of cracked pylon channels on General Dynamics/Convair Model 30 Series aircraft.

Since this condition is likely to develop in other such aircraft, an airworthiness directive is being issued to require repetitive inspections for cracks, with rework or replacement if cracks are found.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days after date of publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

GENERAL DYNAMICS/CONVAIR. Applies to all Model 30 Series aircraft.

Compliance required as indicated.

To preclude an unsafe condition resulting from cracking of the pylon forward engine thrust beacon channels, P/N's 30-24011-71 and -72, accomplish the following:

(a) Within the next 50 hours' time in service following the effective date of this AD unless already accomplished within the last 50 hours' time in service, and thereafter at periods not to exceed 100 hours' time in service from the last inspection, conduct a close visual inspection of Channels P/N's 30-24011-71 and -72 for any evidence of cracking, particular attention shall be given to the area of the relief radius in the vicinity aft end of each channel.

(b) A channel exhibiting a crack in the vertical web not exceeding 1½ inch may be continued in service provided that the crack is stop drilled with a ¼-inch drill and the channel is inspected thereafter at periods not to exceed 12 hours' time in service.

(c) A channel which has been stop drilled in accordance with (b) and in which the crack is found at a subsequent inspection to have progress beyond the stop drill hole, may be continued to be used for an additional 12 hours' time in service provided that it is once again stop drilled with a ¼-inch drill and the total length of crack does not exceed 1½ inch.

(d) Channels exhibiting cracks in the vertical web greater than 1½ inch in length or cracks which have progressed in the horizontal web, shall be replaced prior to a further flight with a new part of the same part number or with an FAA engineering approved equivalent. When a cracked channel is replaced with a new channel P/N's 30-24011-71 or -72, the new channel shall be inspected in accordance with (a) at intervals not to exceed 100 hours' time in service, and when found cracked, shall be subject to the provisions of (b) and (c).

(e) The repetitive inspections required by this AD may be discontinued on replacement channels described in Part B of General Dynamics/Convair Alert Service Bulletin A54-4 or equivalent parts approved by the Chief, Engineering and Manufacturing Branch, FAA Western Region.

(f) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Western Region, may adjust the repetitive inspection intervals specified in this Airworthiness Directive to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(General Dynamics/Convair Alert Service Bulletin A54-4 for the Model 30 covers this same subject.)

This amendment shall become effective August 23, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on August 14, 1962.

EDWARD C. HUDSON,
Acting Director,
Flight Standards Service.

[F.R. Doc. 62-8305; Filed, Aug. 17, 1962;

[Reg. Docket No. 1342; Amdt. 475]

PART 507—AIRWORTHINESS DIRECTIVES

General Dynamics/Convair Models 22, 22M and 30 Series Aircraft

There have been recent cases of loose rudder flight tab balance weights on Convair Models 22, 22M, and 30 Series aircraft. This resulted from improper attachment bolts which caused elongation of the bolt holes in the balance weights and attachment arms. As this condition is likely to develop in other such aircraft, an airworthiness directive is being issued to require inspection of the rudder flight tab balance weight attachments.

As a situation exists which demands immediate action in the interest of safety, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

GENERAL DYNAMICS/CONVAIR. Applies to all Models 22, 22M, and 30 Series aircraft.

Compliance required within 150 hours' time in service following the effective date of this AD, unless already accomplished.

To prevent loose rudder flight tab balance weights, the following shall be accomplished:

Inspect the rudder flight tab balance weight attachments for looseness of the balance weight, missing weights, missing attachment nuts and/or bolts, and for elongation of the attachment bolt holes in the balance weights and attachment arms in accordance with General Dynamics/Convair Alert Service Bulletins A27-60, A27-31, or A27-32, as appropriate. If any of the noted defects are found, they shall be corrected prior to the next flight, as specified in General Dynamics/Convair Alert Service Bulletins A27-60, A27-31, or A27-32, as appropriate, or by an FAA engineering approved equivalent method.

(General Dynamics/Convair Alert Service Bulletins A27-60, A27-31, and A27-32 for the Models 22, 22M, and 30 respectively cover this same subject.)

This amendment shall become effective August 18, 1962.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on August 14, 1962.

EDWARD C. HUDSON,
Acting Director,
Flight Standards Service.

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62-WA-61]

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS AND HIGH ALTITUDE NAVIGATIONAL AIDS

Designation of Jet Advisory Areas

On June 14, 1962, a notice of proposed rule making was published in the FEDERAL REGISTER (27 F.R. 5666) stating that the Federal Aviation Agency proposed to designate terminal radar jet advisory areas at Houston, Tex., New Orleans, La., and Brownsville, Tex.

No comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the Notice, § 602.300 Terminal jet advisory areas (27 F.R. 7317) is amended as follows:

1. The following terminal jet advisory area is added:

Brownsville, Tex., jet advisory area—Radar.
a. Brownsville, Tex., via Brownsville 024° radial to boundary of the Continental Control Area.

2. Under Houston, Tex., jet advisory area—Radar the following is added:

h. Houston, Tex., via Houston 198° radial to boundary of the Continental Control Area.

i. Houston, Tex., via Houston 207° radial to boundary of the Continental Control Area.

j. Galveston, Tex., RBN via Galveston RBN 185° bearing to boundary of the Continental Control Area.

3. Under New Orleans, La., jet advisory area—Radar the following is added:

n. New Orleans, La., via New Orleans 220° radial to boundary of the Continental Control Area.

These amendments shall become effective 0001 e.s.t., October 18, 1962.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on August 13, 1962.

W. THOMAS DEASON,
Assistant Chief,
Airspace Utilization Division.

Title 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 92—BUREAU OF THE MINT PROCEDURES AND DESCRIPTIONS OF FORMS

Part 92, Chapter I, Title 31, of the Code of Federal Regulations, is hereby revised to read as follows:

Subpart A—Procedures

- Sec. 92.1 Gold which may be purchased by the United States.
- 92.2 Deposits of gold bullion with a mint or assay office for return in bar form.
- 92.3 Acceptability of gold deposits.
- 92.4 Deposit of newly mined domestic silver with a mint or assay office.
- 92.5 Deposit of silver for return in bar form.
- 92.6 Silver contained in gold bullion.
- 92.7 Receipts of bullion deposits.
- 92.8 Handling of bullion deposits.
- 92.9 Charges on bullion deposited.
- 92.10 Payment for bullion deposits.
- 92.11 Advance payment.
- 92.12 Redemption and deposit of United States coin.
- 92.13 Sale of gold.
- 92.14 Sale of "proof" gold.
- 92.15 Sale of silver.
- 92.16 Supplying of "proof" silver.
- 92.17 Assays of bullion and ores.
- 92.18 Manufacture of medals.
- 92.19 Sale of "List" medals.
- 92.20 Manufacture of "proof" coins.
- 92.21 Informal consultations.
- 92.22 Matters of official record.
- 92.23 Official records.
- 92.24 Requests for information or official records.

AUTHORITY: §§ 92.1 to 92.24 issued under R.S. 161; 5 U.S.C. 22.

Subpart A—Procedures

§ 92.1 Gold which may be purchased by the United States.

For categories of gold which are purchased by the mints and assay offices, the requirements for acceptability of such gold, and the purchase price under the Gold Regulations, see Part 54, Subpart F of this chapter and § 92.3. The Director of the Mint will issue appropriate instructions to Mint Field Offices on the basis of determinations made pursuant to § 93.6 of this chapter regarding gold not eligible for purchase

under Part 54 of this chapter (Gold Regulations) except that gold held in non-compliance with the gold orders is purchased in accordance with the Instructions of the Secretary of the Treasury of January 17, 1934. No return or payment is made for metal other than gold or silver contained in the deposit.

§ 92.2 Deposits of gold bullion with a mint or assay office for return in bar form.

Any owner of gold bullion, lawfully entitled to hold such gold, may deposit it at any mint or the New York Assay Office for return in the form of stamped bars (but in no case is a gold bar of less weight than 5 ounces made or issued) when licensed to receive such bars under Part 54 of this chapter (Gold Regulations).

§ 92.3 Acceptability of gold deposits.

A gold deposit must contain at least one troy ounce of gold, at least 100 parts of gold in 1,000 with enough additional gold or silver to make at least 200 parts of gold and silver combined in 1,000, so that there will be not more than 800 parts base metals including copper in 1,000. If it does not meet these requirements, or if the report of the Assayer at the Mint institution at which deposited indicates it to be unsuitable for mint operations, it will not be purchased. If the unacceptability of a deposit of scrap gold can be determined before the deposit is melted it may be returned to the depositor, but if the deposit has been melted, it may be returned to the depositor only if he is authorized under the Gold Regulations (Part 54 of this chapter) to hold melted gold. If the depositor is not authorized to hold such gold, it is held for delivery, at his request and for his account. Appropriate instructions on the basis of determinations made pursuant to § 93.7 of this chapter are issued by the Director of the Mint to Mint Field Offices regarding delivery to a refiner or other person licensed under the Gold Regulations to acquire and hold such gold, provided that the gold was not required to be delivered to the United States by the Order of the Secretary of the Treasury dated December 28, 1933.

§ 92.4 Deposit of newly-mined domestic silver with a mint or assay office.

Any owner of newly mined domestic silver, mined subsequently to July 1, 1939, as defined in the Newly Mined Domestic Silver Regulations of July 6, 1939, as amended and supplemented (Part 80 of this chapter), may deposit such silver at the mints; return for such silver is made in accordance with such regulations. Deposits of newly mined domestic silver must be accompanied by duly executed affidavits as evidence that such silver is eligible for deposit. As a matter of convenience to the public, when specifically authorized by the Director, the Assay Office at New York will accept eligible silver for the account of the mint at Philadelphia. Silver of this category will be accepted provided it contains at least 200 parts in 1,000 of silver or of gold and silver combined. The gold content of such deposits will be paid

for at the rate set forth in § 54.44 of this chapter upon compliance with § 54.36 of this chapter. No payment or return will be made for other metal contained in the deposit.

§ 92.5 Deposit of silver for return in bar form.

Silver bullion not eligible for deposit under § 92.4 may be deposited at any mint or the New York Assay Office for return in the form of fine silver bars: *Provided*, That such silver contains not less than 600 parts of silver in 1,000 and not more than 100 parts of gold in 1,000. (The gold content of such deposits if eligible for purchase under § 54.37 of this chapter is paid for at the price set forth in § 54.44 of this chapter; no return is made for base metal contained in the deposit.) No Mint stamped fine silver bar weighing less than 100 gross troy ounces is issued. If a silver deposit containing less than 100 fine ounces of silver is deposited for return in the form of fine silver, the silver returned will be in the form of unmarked bars, or an unmarked piece cut from a bar, approximating as closely as practicable, but not more than, the fine silver content of the deposit. Any fine silver remainder, due the depositor, will be purchased at the price then being paid for silver contained in gold bullion under § 92.6, except that not more than 1,000 ounces of silver shall be purchased in any one month at any one Mint institution without special authorization. Appropriate instructions will be communicated by the Director of the Mint to Mint Field Offices.

§ 92.6 Silver contained in gold bullion.

At the option of the depositor, silver contained in gold bullion (other than newly mined as set forth in § 92.4) sold to the Government is returned to the depositor in the form of silver bars or purchased at such valuations as are from time to time established. The Director of the Mint will issue appropriate instructions to Mint Field Offices, on the basis of determinations made pursuant to § 93.9 of this chapter, regarding changes in such valuations.

§ 92.7 Receipt of bullion deposits.

As a matter of expedience and convenience to the public, the officers in charge of the mint institutions are authorized to receive deposits of bullion by express or mail. In cases where reasonable doubts may arise as to the ownership and eligibility or any other pertinent factor concerning deposits, the officers may decline to receive deposits unless made in person. When gold or silver deposits are received by express or mail, or when formal receipts are not requested by the depositors of silver bullion, memorandum receipts are issued to the depositors. Whenever the depositor of silver requests a formal receipt, he is given a receipt on Form 7a for the before-melting weight of his deposit. No receipt on Form 7a may be given to a depositor of gold bullion. Receipts on Form 7a must be surrendered, properly indorsed by the depositor at the time payment is made for the silver bullion represented thereby. If the depositor of

silver bullion loses his receipt on Form 7a, it is necessary for him before payment is made to give a bond of indemnity for double the value of the deposit.

§ 92.8 Handling of bullion deposits.

(a) All bullion deposited or purchased at any of the mints or assay offices is weighed, when practicable, in the presence of the depositor or his agent, and the weight is verified by some official or competent employee of the mint. Weights are recorded in troy ounces and hundredths of an ounce. In receiving and weighing deposits, fractions of one-hundredths of an ounce are disregarded. When several parcels are deposited by the same depositor at the same time they may be weighed separately at his request, but separate assays are made only subject to separate melting charges for each parcel assayed.

(b) The Assayer takes at least two samples in sufficient portions for assay from each deposit of bullion. The percentages of the gold, silver and base metal contained, as well as the charges to which the deposit is subject, are indicated by the Assayer on a special form provided for that purpose, which is signed by the Assayer. This form also contains the depositor's name, the number and date of the deposit, the class of bullion, the weight before and after melting and the deductions, if any, to which the deposit has been subjected.

§ 92.9 Charges on bullion deposited.

The charges for the various operations on bullion deposited and for the preparation of bars are fixed from time to time by the Director of the Mint, with the concurrence of the Secretary of the Treasury, so as to equal but not exceed in their judgment the actual average cost of the material, labor, wastage and use of machinery employed. The current charges are set forth in the Table of Charges (Part 90 of this chapter). Depositors are credited with the after-melting weight of their bullion except that deductions will be made on base bullion deposits if they have adhering substances, slag, or an oxidized surface. The detailed memorandum of the weight of bullion after melting, the report of the Assayer as to fineness, the value of the deposit and the amount of the charges is given to the depositor.

§ 92.10 Payment for bullion deposits.

Payment for bullion is made, in so far as practicable, in the order in which the deposits are received by check drawn in favor of the depositor (or if payment is for silver bullion to such other person as he may designate). In no case is a check in payment of a deposit drawn in favor of any officer or employee of the institution where the deposit is made, and in no case may any person employed in the institution act as agent for the depositor. Checks may be sent by ordinary mail at the risk of the payee or by registered mail at their request and expense.

§ 92.11 Advance payment.

When the approximate fineness of a deposit of bullion containing \$5,000 or

more in gold or 5,000 or more ounces of silver may be readily determined, partial payment of 90 percent of the value may be made at the discretion of the officer in charge. If the fineness is closely determined by assay, and the deposit is awaiting remelting and reassay for exact determination, partial payment up to 98 percent of the value may be made. Partial payment of 98 percent of the declared value of a deposit of foreign coin valued at not less than one million dollars may be made after its weight and approximate value have been determined. On a deposit of a million dollars in value of gold bullion not less than 0.995 fine, payment of 98 percent of the declared value may be made after the weight and approximate value have been determined. Other advances may be authorized by the Secretary of the Treasury. In any case of an advance the depositor must give a written guaranty that the value of the deposit is at least equal to the amount advanced.

§ 92.12 Redemption and deposit of United States coin.

(a) United States gold coin is received at the mint institutions in accordance with the Instructions of the Secretary of the Treasury of January 17, 1934. Coin eligible for acceptance under such instructions if of legal weight is paid for at face value; if worn or mutilated is received as standard metal without previous melt or assay (except when it may be necessary to establish the amount of foreign substance present that cannot otherwise be determined), and is paid for as bullion at the rate of \$20.67+ per ounce of fine gold.

(b) The regulations governing the redemption and exchange of silver and minor coins are set forth in Part 100 of this chapter.

§ 92.13 Sale of gold.

The regulations governing the sale of gold by mint institutions and the sale price thereof are set forth in §§ 54.51 and 54.52 of this chapter. The right is reserved to furnish such gold from any mint institution if the interest of the Government so requires. Transportation costs from the institution of sale to the purchaser are paid by the purchaser. Payment in cash or currency, or Federal Reserve bank check, will be accepted at the time of delivery of the bars. Payment by other check will be accepted but delivery will not be made until the check has been deposited by the officer in charge of the institution and has cleared.

§ 92.14 Sale of "proof" gold.

"Proof" gold (i.e., gold at least 0.9999+ fine) is sold only upon specific instructions by the Director of the Mint to Mint Field Offices on the basis of determinations made pursuant to § 93.11 of this chapter.

§ 92.15 Sale of silver.

Discontinued by direction of the President on November 28, 1961.

§ 92.16 Supplying of "proof" silver.

"Proof" silver (i.e., silver 0.9999+ fine) may in exceptional cases be supplied in exchange for silver furnished by the ap-

plicant, with appropriate charges to cover the cost of manufacture.

§ 92.17 Assays of bullion and ores.

Samples of bullion are assayed for gold and silver for the public at all mint institutions at the charges set forth in the Table of Charges (Part 90 of this chapter). Samples of ores are assayed for the public at the Denver Mint, for the metals listed in the Table of Charges (Part 90 of this chapter), at the prices set forth therein.

§ 92.18 Manufacture of medals.

With the approval of the Director of the Mint, dies for medals of a national character may be executed and struck at the Philadelphia Mint. Mint institutions are not authorized to prepare dies for private medals. However, when in the opinion of the Director the regular business of the Mint permits and when the Director so specifically authorizes, private medals may be struck from dies furnished by the parties in interest; charges are assessed to cover the cost of the operations. Application for the manufacture of such medals may be made by letter to the Director of the Mint, Treasury Department, Washington 25, D.C.

§ 92.19 Sale of "list" medals.

Medals on the regular mint list, when available, are sold to the public at a charge sufficient to cover their cost. Copies of the list of medals available for sale and their selling prices may be obtained from the Superintendent of the Mint at Philadelphia.

§ 92.20 Manufacture of "proof" coins.

"Proof" coins, i.e., coins prepared from blanks specially struck and polished, are made by the Mint at Philadelphia, upon specific authorization by the Director and are sold by the Superintendent at a price fixed by the Director, which is face value plus a charge sufficient to cover the additional expense of their preparation. Their manufacture and issuance are contingent upon the demands of regular operations. "Proof" coins are made only in the designs and denominations of coins manufactured for circulation in the year in which they are struck.

§ 92.21 Informal consultations.

Officials of the Bureau of the Mint are available by appointment for consultation on problems involving the functions of the Bureau, interpretation of regulations, or similar matters.

§ 92.22 Matters of official record.

The following are deemed to be matters of official record within the meaning of section 3(c) of the Administrative Procedure Act (60 Stat. 237; 5 U.S.C. 1002(c)):

(a) Records of before-melting weight of gold and silver.

(b) Final report of assay and calculation of value of bullion (supplied to depositor).

(c) Correspondence relating to each of the above.

(d) Rulings and opinions issued in connection with mint matters.

§ 92.23 Official records.

(a) *Official records deemed confidential.* Official records falling within § 92.22 (a) through (d) are held to be confidential for the following causes: (1) They do not contain information of legitimate concern to the general public; (2) they may contain information of a confidential nature concerning the commercial and industrial affairs and activities of individuals and enterprises; and (3) to permit general inspection of such documents would violate public and private confidence.

(b) *Availability of official records deemed confidential.* Official records deemed confidential are available for inspection as follows:

(1) Depositors of gold or silver may inspect documents included in § 92.22 (a) through (d) which refer to their deposit; and

(2) Persons properly and directly concerned, upon the furnishing of a court order therefor entered in pending litigation, or in lieu thereof with the written consent of the person authorized to inspect the documents under this paragraph or paragraphs (a) or (c) of this section, may inspect documents included in § 92.22 (a) through (d); and

(3) Upon official requests of other Federal or State governmental agencies or officers thereof, acting in their official capacities, the records included in § 92.22 may be made available to them.

(c) *Information for applicants.* Applicants will be advised of the records which they will be permitted to examine, the time and place of examination. In certain instances, where facilities permit, copies of documents may in the discretion of the Director be sent to the applicant. A reasonable fee may be charged for furnishing copies of official records.

§ 92.24 Requests for information or official records.

Requests for information or to examine matters of official record should be directed to the Director of the Mint. The request should clearly state the information desired and set forth the interest of the applicant in the subject matter and the purpose for which the information is desired. If the applicant is an agent or attorney acting for another, he should attach to the application evidence of his authority to act for his principal.

Dated: August 14, 1962.

[SEAL] DOUGLAS DILLON,
Secretary of the Treasury.

[F.R. Doc. 62-8319; Filed, Aug. 17, 1962; 8:48 a.m.]

PART 93—OFFICE OF DOMESTIC GOLD AND SILVER OPERATIONS PROCEDURES AND DESCRIPTIONS OF FORMS

The following statement of procedures and descriptions of forms of the Office of Domestic Gold and Silver Operations is published in accordance with section 3(a) of the Administrative Procedure Act. This office was established under

the Under Secretary for Monetary Affairs by Treasury Department Order 193 (26 F.R. 9567), and the duties transferred to the Under Secretary by the October 9, 1961, amendments to Parts 54 and 80 of Title 31 of the Code of Federal Regulations (26 F.R. 9551) have been delegated to the Director, Office of Domestic Gold and Silver Operations by Treasury Department Order 193-1 (26 F.R. 10079).

Subpart A—Procedures

- | | |
|-------|---|
| Sec. | |
| 93.1 | 1933 gold orders. |
| 93.2 | Melted or treated gold improperly withheld. |
| 93.3 | Regulations governing gold. |
| 93.4 | Applications for gold licenses. |
| 93.5 | Issuance of gold licenses. |
| 93.6 | Gold which may be purchased by the United States. |
| 93.7 | Acceptability of gold deposits. |
| 93.8 | Deposit of newly-mined domestic silver with a mint or assay office. |
| 93.9 | Silver contained in gold bullion. |
| 93.10 | Sale of gold. |
| 93.11 | Sale of "proof" gold. |
| 93.12 | Sale of silver. |
| 93.13 | Informal consultations. |
| 93.14 | Opinions, rulings and orders available to the public. |
| 93.15 | Matters of official record. |
| 93.16 | Official. |
| 93.17 | Requests for information or official records. |
| 93.18 | Procedures for denying an application for a gold license, for revoking, suspending, modifying a license, and for excluding any person from the privileges or authorizations conferred in Part 54 of this chapter. |

Subpart B—Descriptions of Forms and Required Statements

93.40 Description of; copies of forms.

FORMS RELATING TO GOLD MATTERS

- | | |
|-------|---|

| 93.54 | Form TG-17: Application for license to import, hold, transport, and export transit gold. |
| 93.55 | Form TG-18: Application for license to acquire, transport, melt or treat, import, export or earmark gold or hold gold in custody for foreign or domestic account. |
| 93.56 | Form TG-19: Certification accompanying deposits by persons who have recovered gold by mining or panning. |
| 93.57 | Form TG-20: Certification accompanying deposits by persons who have recovered gold in the regular course of their business of operating a custom mill, smelter, or refinery. |
| 93.58 | Form TG-21: Certification accompanying deposits by persons purchasing gold directly from miners or panners. |
| 93.59 | Form TG-22: Certification of depositor of scrap gold. |
| 93.60 | Form TG-23: Certification of depositor of gold (other than United States gold coin) imported into the United States after January 30, 1934. |
| 93.61 | Form TG-24: Certification to Treasury Department by direct user of gold. |
| 93.62 | Form TG-25: Certification to Treasury Department by person engaged in the business of furnishing gold for use in industry, profession, or art. |
| 93.63 | Form TG-26: Certification to accompany deposit of gold refined from gold-bearing material imported into the United States. |
| 93.64 | Form TG-28: Statement of depositor of gold recovered from Mint sweeps. |
| 93.65 | Form TG-29: End-use certificate for semi-processed gold. |
| 93.66 | Form TG-30: Statement of holder of melted gold. |
| 93.67 | Form TG-31: Application for license to import gold coin. |

FORMS RELATING TO SILVER MATTERS

- | | |
|-------|--|
| 93.75 | Application to purchase silver from the Treasury Department under the Act of July 31, 1946 (60 Stat. 750; 31 U.S.C. 316d). |
| 93.76 | Forms prescribed (for deposits) under the Act of July 6, 1939. |
| 93.77 | Forms prescribed (for deposits) under the Act of July 31, 1946. |

AUTHORITY: §§ 93.1 to 93.77 issued under RS 161; 5 U.S.C. 22.

Subpart A—Procedures

§ 93.1 1933 gold orders.

With certain exceptions, all persons subject to the jurisdiction of the United States were required to deliver to the Treasurer of the United States gold coins, gold bullion, and gold certificates situated in the United States, pursuant to Executive Order No. 6102 of April 5, 1933, Executive Order 6260 of August 28, 1933 (31 CFR, 1938 ed., Part 50), and the Order of the Secretary of the Treasury of December 28, 1933 (31 CFR, 1938 ed., Part 52), (referred to in this part as the gold orders). Gold coins having a recognized special value to collectors of rare and unusual coins, including all gold coins made prior to April 5, 1933 have been exempted from such delivery requirement. Gold bullion and certificates withheld in violation of the gold

orders are still required to be delivered in accordance therewith.

§ 93.2 Melted or treated gold improperly withheld.

Persons holding gold in melted or treated form which was required to be delivered by the gold orders, or which is not authorized to be held under the Gold Regulations issued under the Gold Reserve Act of 1934, and section 5(b) of the Act of October 6, 1917, as amended (Part 54 of this chapter) (referred to in this part as the gold regulations), should immediately deliver such gold to a mint or assay office. Payment for gold held in noncompliance with the gold orders is governed by the Instructions of the Secretary of the Treasury of January 17, 1934 (Part 53 of this chapter).

§ 93.3 Regulations governing gold.

Gold in any form may be presently acquired, held, transported, melted or treated, imported, exported, earmarked or disposed of only in accordance with the Gold Regulations, set forth in Part 54 of this chapter, and the procedural requirements of this part.

§ 93.4 Applications for gold licenses.

Applications for gold licenses should be filed in duplicate with the Office of Domestic Gold and Silver Operations, Treasury Department, Washington 25, D.C. The Director makes the determination as to the eligibility of the applicant to receive a gold license.

§ 93.5 Issuance of gold licenses.

The Director issues gold licenses in accordance with the provisions of Part 54 of this chapter (Gold Regulations). In addition to determining whether applicants satisfy the specific requirements for the issuance of a gold license, the Director investigates the general business reputation, character and financial responsibility of the applicant before authorizing the issuance of a gold license.

§ 93.6 Gold which may be purchased by the United States.

For categories of gold which are purchased by the United States, the requirements for acceptability of such gold, and the purchase price under the Gold Regulations, see Part 54, Subpart F of this chapter and § 93.7. Disposition of gold not eligible for purchase under Part 54 of this chapter (Gold Regulations) is determined by the Director, Office of Domestic Gold and Silver Operations, except that gold held in noncompliance with the gold orders is purchased in accordance with the Instructions of the Secretary of the Treasury of January 17, 1934. No return or payment is made for metal other than gold or silver contained in the deposit.

§ 93.7 Acceptability of gold deposits.

A gold deposit must contain at least one troy ounce of gold, at least 100 parts of gold in 1,000 with enough additional gold or silver to make at least 200 parts of gold and silver combined in 1,000, so that there will be not more than 800 parts base metals including copper in 1,000. If it does not meet these require-

ments, or if the report of the Assayer at the Mint institution at which deposited indicates it to be unsuitable for Mint operations, it will not be purchased. If the unacceptability of a deposit of scrap gold can be determined before the deposit is melted, it may be returned to the depositor, but if the deposit has been melted, it may be returned to the depositor only if he is authorized under the Gold Regulations (Part 54 of this title) to hold melted gold. If the depositor is not authorized to hold such gold, it is held for delivery, at his request and for his account, and by authorization of the Director, Office of Domestic Gold and Silver Operations, to a refiner or other person licensed under the Gold Regulations to acquire and hold such gold, provided that the gold was not required to be delivered to the United States by the Order of the Secretary of the Treasury dated December 28, 1933.

§ 93.8 Deposit of newly-mined domestic silver with a mint or assay office.

Any owner of newly-mined domestic silver, mined subsequently to July 1, 1939, as defined in the Newly-Mined Domestic Silver Regulations of July 6, 1939, as amended and supplemented (Part 80 of this chapter), may deposit such silver at the mints; return for such silver is made in accordance with such regulations. Deposits of newly-mined domestic silver must be accompanied by duly executed affidavits as evidence that such silver is eligible for deposit. When specifically authorized by the Director of the Mint, the Assay Office at New York will accept eligible silver for the account of the Mint at Philadelphia. Silver of this category will be accepted provided it contains at least 200 parts in 1,000 of silver or of gold and silver combined. The gold content of such deposits will be paid for at the rate set forth in § 54.44 of this chapter, upon compliance with § 54.36 of this chapter. No payment or return will be made for other metal contained in the deposit.

§ 93.9 Silver contained in gold bullion.

At the option of the depositor, silver contained in gold bullion (other than newly-mined as set forth in § 93.8) sold to the Government is returned to the depositor in the form of silver bars or purchased at such valuations as are from time to time established by the Director, Office of Domestic Gold and Silver Operations.

§ 93.10 Sale of gold.

The regulations governing the sale of gold by mint institutions and the sale price thereof are set forth in §§ 54.51 and 54.52, and Part 92 of this chapter.

§ 93.11 Sale of "proof" gold.

"Proof" gold (i.e., gold at least 0.9999+ fine) is sold only in exceptional cases upon specific authorization of the Director, Office of Domestic Gold and Silver Operations, at a charge equal to \$35 per fine troy ounce plus one-quarter of one percent plus cost of manufacture.

§ 93.12 Sale of silver.

Discontinued by direction of the President on November 28, 1961.

§ 93.13 Informal consultations.

Officials of the Office of Domestic Gold and Silver Operations are available by appointment for consultation on problems involving the functions of the Office, interpretation of regulations, or similar matters.

§ 93.14 Opinions, rulings and orders available to the public.

Final opinions, rulings and orders issued by the Office of Domestic Gold and Silver Operations in specific cases in connection with administration of the gold and silver regulations and other matters are not cited as precedents and, accordingly, are not published or made available to the public except in the discretion of the Director upon specific request and a showing of legitimate interest therein. Rulings and opinions of general applicability are available to the public upon written request to the Director.

§ 93.15 Matters of official record.

The following are deemed to be matters of official record within the meaning of section 3(c) of the Administrative Procedure Act (60 Stat. 237; 5 U.S.C. 1002(c)):

- (a) Applications for gold licenses.
- (b) Gold licenses.
- (c) Applications or End-Use certificates for the purchase of gold supplied to the mints and assay offices or to authorized gold dealers.
- (d) Reports submitted by gold licensees and by depositors of silver.
- (e) Audit reports of silver refining companies and persons having transactions in other than monetary gold made by field auditors of the Office of Domestic Gold and Silver Operations.
- (f) Affidavits and statements accompanying deposits of gold and silver.
- (g) Transcripts of hearings with exhibits and other supporting documents.
- (h) Correspondence relating to each of the above.
- (i) Investigative reports.
- (j) Rulings and opinions issued in connection with administration of gold and silver regulations and other matters.

§ 93.16 Official.

(a) *Official records deemed confidential.* Official records falling within § 93.15 (a) through (i) are held to be confidential for the following causes: (1) They do not contain information of legitimate concern to the general public; (2) they may contain information of a confidential nature concerning the commercial and industrial affairs and activities of individuals and enterprises; and (3) to permit general inspection of such documents would violate public and private confidence.

(b) *Availability of official records deemed confidential.* Official records deemed confidential are available for inspection as follows:

- (1) An applicant for a gold license and his agent or successor in interest may inspect documents included in § 93.15 (a), (b), (c), (d), and (h) which refer to his application;
- (2) Gold licensees, persons whose licenses have been revoked, persons whose applications have been denied, and their

agents or successors in interest may inspect documents included in § 93.15 (a), (b), (c), (d), (g), and (h) which refer to their applications or licenses;

(3) Persons properly and directly concerned, upon the furnishing of a court order therefor entered in pending litigation, or in lieu thereof with the written consent of the person authorized to inspect the documents under this paragraph or paragraph (a) or (c) of this section, may inspect documents included in § 93.15 (a) through (h); and

(4) Any person showing a legitimate interest therein will be advised as to the form and amount of a license held by any person.

(5) Upon official requests of other Federal or state governmental agencies or officers thereof, acting in their official capacities, the records included in § 93.15 may be made available to them.

(c) *Information for applicants.* Applicants will be advised of the records which they will be permitted to examine, the time and place of examination. In certain instances, where facilities permit, copies of documents may in the discretion of the Director be sent to the applicant. A reasonable fee may be charged for furnishing copies of official records.

§ 93.17 Requests for information or official records.

Requests for information or to examine matters of official record should be directed to the Director, Office of Domestic Gold and Silver Operations. The request should clearly state the information desired and set forth the interest of the applicant in the subject matter and the purpose for which the information is desired. If the applicant is an agent or attorney acting for another, he should attach to the application evidence of his authority to act for his principal.

§ 93.18 Procedures for denying an application for a gold license, for revoking, suspending, modifying a license, and for excluding any person from the privileges or authorizations conferred in Part 54 of this chapter.

(a) *Investigations.* The Director, Office of Domestic Gold and Silver Operations is authorized to make or cause to be made such investigations as the Director deems necessary or proper to assist in the consideration of any applications for licenses or in the administration and enforcement of the Gold Reserve Act of 1934 (31 U.S.C. 440) section 5(b) of the act of October 6, 1917, as amended (12 U.S.C. 95a(3)), and Part 54 of this chapter (Gold Regulations). In general, such investigations are conducted by the staff of the Office of Domestic Gold and Silver Operations. Subpoenas are issued by the Director, Office of Domestic Gold and Silver Operations in accordance with the provisions of § 54.26 of this chapter, and may require the appearance and testimony of any person believed to have knowledge of any pertinent facts and the production of any documents or records specified in § 54.26 of this chapter or otherwise deemed to be relevant to the inquiry, at any designated place.

(b) *Notification.*—(1) *Notification to person whose application has been*

denied, whose license has been revoked, suspended or modified, or who has been excluded from any authorization or privilege. Any person whose application for an initial gold license, or for a renewal of an existing license is denied, whose gold license is revoked, modified or suspended, or who is excluded from any privilege or authorization conferred in Part 54 of this chapter, shall be notified by the Director, Office of Domestic Gold and Silver Operations by registered letter mailed to the last address of such person on file with the Office of Domestic Gold and Silver Operations, of such denial, revocation, suspension, modification, or exclusion. Such notice shall contain a concise statement of the grounds for any such action, and shall, in appropriate cases, inform the party proceeded against of his right to reconsideration under paragraphs (c) and (d) of this section: *Provided*, That the notice is answered in writing or a hearing is requested within 15 days after receipt of such notice, or within such different time as the Director, Office of Domestic Gold and Silver Operations may, for special cause, prescribe.

(2) *Notification by show-cause order.* In the first instance, the Director, Office of Domestic Gold and Silver Operations may, by registered letter addressed to the last address of the respondent on file with the Office of Domestic Gold and Silver Operations, require any such person to show cause why his Treasury Department gold license should not be revoked, modified or suspended, or to show cause why he should not be excluded from any privileges or authorizations conferred in Part 54 of this chapter. Such show-cause order shall set forth the specific violations charged, including references to the particular regulatory provisions alleged to have been violated, and shall give notice of the sanctions which may be imposed in the event respondent is found to have committed the alleged violations, i.e., whether his license will be revoked, modified or suspended, or he will be excluded from any privilege or authorization contained in Part 54 of this chapter or both. Such order shall advise the respondent that in the event of a failure to answer the charges in writing or to request a hearing within 15 days from the date of receipt of the show-cause order, or within such other time as the Director, Office of Domestic Gold and Silver Operations shall, for special cause prescribe, he shall be held in default, in which case the Director shall issue a final decision, all intervening proceedings being deemed waived because of such default. A show-cause order issued under this subparagraph may also require the appearance and testimony of any person believed to have knowledge of any pertinent facts, and the production of any documents or records specified in § 54.26 of this chapter, or otherwise deemed to be relevant to the inquiry.

(c) *Requests for reconsideration.* A written request for reconsideration of any action of which notification has been given under paragraph (b) (1) of this section, setting forth in detail the basis for such request, or an answer to

a show-cause order issued pursuant to paragraph (b) (2) of this section may be addressed to the Director, Office of Domestic Gold and Silver Operations, Treasury Department, Washington 25, D.C. In addition, upon written request the Director will schedule a formal hearing in the matter at which time there may be brought to the attention of the Office of Domestic Gold and Silver Operations any information bearing thereon. If the respondent so desires he may waive the formal hearing and have the case considered by the Director, Office of Domestic Gold and Silver Operations on the basis of his written answer.

(d) *Hearings.*—(1) *Initiation of proceedings.* In any case of a request for a formal hearing made in accordance with the provisions of paragraph (c) of this section, the Director, Office of Domestic Gold and Silver Operations shall send a charging letter notifying the respondent of the basis upon which action denying his application, revoking, suspending, or modifying his license, or excluding him from any privilege or authorization contained in Part 54 of this chapter was taken. The charging letter shall inform the respondent of the time and place of the hearing, and shall be sent by registered mail to the last address of the respondent on file with the Office of Domestic Gold and Silver Operations. The specific violations charged and references to the particular laws and regulations alleged to have been violated shall be included in the charging letter: *Provided, however*, That, in the event that proceedings are initiated by show-cause order issued by the Director, Office of Domestic Gold and Silver Operations in accordance with the provisions of paragraph (b) (2) of this section, such show-cause order and any amendments thereto, shall constitute the charging letter.

(2) *Preliminary informal conferences.* Prior to any hearing conducted under subparagraph (3) of this paragraph, there may be held, at the request of either party and with the consent of both parties, a preliminary informal conference, for the purpose of settling or simplifying the issues by consent of the parties.

(3) *Formal procedures.*—(i) *Presiding officers.* Hearings under this subparagraph shall be conducted by the Director, Office of Domestic Gold and Silver Operations or by an independent hearing examiner duly appointed and qualified by the Civil Service Commission and designated by the Director, Office of Domestic Gold and Silver Operations to preside. The presiding officer shall have authority in connection with the hearing to administer oaths and affirmations, rule upon offers of proof, take or cause depositions to be taken whenever the ends of justice would be served thereby, regulate the course of the hearing, hold conferences for the settlement or simplification of the issues by consent of the parties, dispose of procedural requests or similar matters, and take other action consistent with the rules and regulations of the Office of Domestic Gold and Silver Operations and other requirements of law.

(ii) *Conduct of hearings.* The Office of Domestic Gold and Silver Operations

and the respondent may offer any oral or documentary evidence relevant and material to the charges specified in the charging letter or the show-cause order. The exclusionary rules of evidence prevailing in courts of law shall not be applied. However, irrelevant, immaterial, or unduly repetitious evidence shall be excluded. Respondent and the agency may be represented by counsel. The proceedings shall be duly reported and a full transcript thereof filed with Office of Domestic Gold and Silver Operations. After both parties have had a full opportunity to offer all oral and documentary evidence bearing on the charges, to conduct such cross-examination as may be required for a full and complete development of the facts, and to submit rebuttal evidence, the hearing examiner shall declare the hearing adjourned.

(iii) *Submission of corrections in the record, proposed findings, and conclusions.* Upon adjournment of the hearing, copies of the transcript shall be submitted to the respondent and to counsel for the Office of Domestic Gold and Silver Operations, who may, within 15 days after receipt thereof or within such other time as the presiding officer may, for special cause prescribe, submit to the presiding officer a statement in writing setting forth proposed findings and conclusions, which may be accompanied by a brief in support thereof, and proposed corrections in the record. The presiding officer may, upon the request of any party allow the submission of a reply brief in any case involving disputed questions of law: *Provided, however,* That except in justified cases, the presiding officer shall allow, for the submission of a reply brief, a period of not more than ten days after the party requesting the opportunity to submit a reply has received the brief of the opposing party. If respondent or counsel for the Office of Domestic Gold and Silver Operations submits any proposed findings or conclusions, briefs, or corrections in the record, he shall, as promptly as practicable, furnish copies thereof to the opposing side. All such submittals shall be a part of the record.

(iv) *Requests to reopen a hearing.* The presiding officer may upon written request reopen a proceeding at any time prior to his report, or should the Director, Office of Domestic Gold and Silver Operations preside at the hearing, then prior to the final decision, for the purpose of hearing any relevant and material evidence which was unknown or which was unobtainable at the time of the original hearing. The request for re-opening shall contain a summary of such evidence, the reasons why it is considered to be material and relevant, and the reasons why it could not have been presented at the original proceeding.

(v) *Hearing examiner's report.* In any case in which a hearing is conducted by an independent hearing examiner, such examiner, within 30 days after the expiration of the time allowed for filing proposed findings and conclusions and briefs, or within such different period as the Director, Office of Domestic Gold

and Silver Operations may prescribe, shall file with the Director, Office of Domestic Gold and Silver Operations his report containing his findings of fact, recommended decision, and rulings on any corrections in the record submitted under subdivision (iii) of this subparagraph. A copy of such report shall be forthwith furnished to the respondent and to counsel for the Office of Domestic Gold and Silver Operations by the Director, Office of Domestic Gold and Silver Operations.

(vi) *Exceptions.* Within 15 days after receipt of a copy of the hearing examiner's report the respondent or counsel for the Office of Domestic Gold and Silver Operations may file exceptions to the recommended decision of the hearing examiner, or any portion thereof, or to his failure to follow a proposed finding or conclusion, or to the admission or exclusion of evidence, and within such period he may file a brief in support of his contentions and exceptions. All such submittals shall be addressed to the Director, Office of Domestic Gold and Silver Operations. A copy of such exceptions and briefs shall be furnished to the opposing side.

(vii) *Decision.* Final decision in the case shall be made by the Director, Office of Domestic Gold and Silver Operations, after reviewing the record and all exceptions thereto. Copies of such decision shall forthwith be furnished to the respondent and to counsel for the Office of Domestic Gold and Silver Operations.

(e) *Issuance of temporary license or authorization.* Any person whose license has been suspended, revoked or modified, or who has been excluded from any of the privileges or authorizations conferred in Part 54 of this chapter, and who has requested a reconsideration of such suspension, revocation, modification or exclusion, in accordance with the provisions of paragraphs (c) and (d) of this section may be permitted during the pendency of any such proceeding, to operate under a temporary license or authorization upon such terms and conditions as the Director, Office of Domestic Gold and Silver Operations shall prescribe, unless, in the opinion of the Director, the issuance of such a temporary license or authorization would be contrary to the public interest.

Subpart B—Description of Forms and Required Statements

§ 93.40 Description of; copies of forms.

The descriptions of the forms and required statements contained in this subpart are not intended to indicate the detail of the forms but are merely general references to the use and content thereof. Copies of the forms may be obtained from the Treasury Department, Office of Domestic Gold and Silver Operations, Washington 25, D.C.

FORMS RELATING TO GOLD MATTERS

§ 93.41 Form TG-11: Application for license to export gold coin.

(See §§ 54.20 and 54.25(b)(3) of this chapter.) The applicant is required to

submit a description of each coin, including date, denomination, country of issue, condition, mint mark (if any), and design. Port of export and the name and address of the person to whom the gold coins will be exported are also required to be stated.

§ 93.42 Form TG-12: Application for a gold license.

This form is to be used in applying for an initial license, or for a modification or renewal of an existing license to acquire and hold, transport, melt or treat, and/or import gold for use in industry, profession or art or for sale to the United States. It contains descriptions of various types of gold licenses which may be issued on the basis of this application. The applicant is required to submit information concerning his particular needs for gold and a gold license and the ownership and nature of his business.

§ 93.43 Form TGR-12: Semiannual report of scrap gold dealers.

This report is required of holders of gold licenses on Form TGL-12. Detailed information is required concerning the acquisition, holding and disposition of scrap gold by the licensee during the six-months period.

§ 93.44 Form TGR-13: Semiannual report for holders of licenses on Form TGL-13 and TGL-13-A.

This report is required of holders of gold licenses on Form TGL-13 and TGL-13-A. Detailed information is required concerning the acquisition, holding and disposition of gold by the licensee during the six-months' period.

§ 93.45 Form TGR-14: Semiannual report for holders of licenses on Form TGL-14.

This report is required of holders of gold licenses on Form TGL-14. Detailed information is required concerning the acquisition, holding and disposition of gold by the licensee during the six-months period.

§ 93.46 Form TG-15: Application for license to export or transport semiprocessed gold from the continental United States.

(See § 54.25(b)(4) of this chapter.) Information is required concerning the amount and invoiced sales price of the semiprocessed gold which it is desired to export, the description of the semiprocessed gold, the port of export, the consignee, and the purposes for which the gold will be used abroad.

§ 93.47 Statement to accompany applications to export semiprocessed gold.

This statement is required of the consignee of the gold and must accompany applications on Form TG-15 to export semiprocessed gold in excess of 100 fine troy ounces. Information is required concerning the business of the consignee, the use to be made of the gold, and the disposition of previous holdings of gold; the consignee is also required to state that the proposed importation and payment therefor are authorized or licensed under the applicable laws of the country of importation.

§ 93.48 Form TG-15 (General): Application for general license to export semiprocessed gold from the United States for use in the dental profession.

(See § 54.25(b)(4) of this chapter.) Application is submitted on this form instead of Form TG-15 if the applicant desires to obtain a license to cover recurring shipments to regular customers for specified amounts and types of semiprocessed gold of 22 karats or less for use in the dental profession. This application is required to be submitted on a semi-annual basis, and information is required with respect to each consignee.

§ 93.49 Form TGR-15 (General): Report for holders of general licenses on Form TGL-15 (General).

This report is required of holders of gold licenses on Form TGL-15 (General). Detailed information is required concerning the exportations made during each six months period pursuant to the general license.

§ 93.50 Form TG-15-B: Application for general licenses to export gold from the continental United States in any form for refining or processing.

(See § 54.25(b)(4) of this chapter.) The applicant is required to set forth a description of the gold which it is desired to export for refining or processing, the amounts of such gold, the ports of export, and the specific reason for exporting the gold. The applicant is also required to agree that he will reimport into the United States the refined or processed gold (or its equivalent in refined or processed gold) derived from the gold exported.

§ 93.51 Form TGR-15-B: Monthly report for holders of general licenses on Form TGL-15-B.

This report is required of holders of gold licenses on Form TGL-15-B. Information is required concerning the gold exported for refining or processing and the reimportations of the refined or processed gold derived therefrom, during the calendar month of the report.

§ 93.52 Form TG-16: Certification accompanying export declaration for gold refined from imported gold-bearing materials.

(See § 54.32 of this chapter.) The applicant is required to submit information as to the amount of refined gold to be exported, names and addresses of the immediate and ultimate consignees, the location of the plant at which the gold was refined, and the ports of export; and to make certain representations concerning its interest in the gold.

§ 93.53 Supplemental to application on Form TG-16: Certificate of no Communist Chinese or North Korean interest.

This certificate is required to be executed by persons abroad effecting sale of gold refined from imported gold-bearing materials and filed in support of Form TG-16. Information is required concerning the gold to be re-exported and the foreign consignee. The signer is required to certify that he has no informa-

tion other than that set forth on the form that any designated national as defined in the Foreign Assets Control Regulations (Chapter V of this title) may have or may obtain any interest in the refined gold, which is to be re-exported, or that any person with whom the signer has had dealings in connection with such gold may be, or may have been acting on behalf of any designated national as defined in the Foreign Assets Control Regulations (Chapter V of this title).

§ 93.54 Form TG-17: Application for license to import, hold, transport, and export transit gold.

(See § 54.33 of this chapter.) The applicant is required to submit information concerning the entry and re-export of the gold, the amount and description of the gold, the name and address of the consignee, and place of delivery abroad.

§ 93.55 Form TG-18: Application for license to acquire, transport, melt or treat, import, export or earmark gold or hold gold in custody for foreign or domestic account.

(See § 54.34 of this chapter.) Application is made on this form for a license to deal in gold for purposes other than those specified in Part 54 of this chapter (Gold Regulations) which in the judgment of the Secretary of the Treasury are not inconsistent with the purposes of the Gold Reserve Act of 1934 and section 5(b) of the act of October 6, 1917, as amended. The applicant is required to submit a complete statement of the nature of the transaction or type of transactions for which the gold is to be used, the reasons why gold is required, and the grounds on which he bases his belief that such use of the gold is not inconsistent with such acts.

§ 93.56 Form TG-19: Certification accompanying deposits by persons who have recovered gold by mining or panning.

(See § 54.36(a)(1) of this chapter.) The depositor is required to submit a description of the gold and information as to the sources and dates of acquisition.

§ 93.57 Form TG-20: Certification accompanying deposits by persons who have recovered gold in the regular course of their business of operating a custom mill, smelter, or refinery.

(See § 54.36(a)(2) of this chapter.) The depositor is required to submit a description of the gold and to certify he is keeping records as to the source of the gold.

§ 93.58 Form TG-21: Certification accompanying deposits by persons purchasing gold directly from miners or panners.

(See § 54.36(a)(3) of this chapter.) The depositor is required to submit a description of the gold and information as to the sources and dates of acquisition.

§ 93.59 Form TG-22: Certification of depositor of scrap gold.

(See § 54.38 of this chapter.) The depositor is required to submit a description of the gold and information as to the sources and dates of acquisition.

§ 93.60 Form TG-23: Certification of depositor of gold (other than United States gold coin) imported into the United States after January 30, 1934.

(See § 54.40 of this chapter.) The depositor is required to submit a description of the gold, the name of the foreign shipper and of the owner, the date of arrival of the gold in the United States, and to certify to other facts.

§ 93.61 Form TG-24: Certification to Treasury Department by direct user of gold.

(See § 54.51 of this chapter.) The applicant is required to submit information concerning his present holdings of gold, his requirements for fine gold for a 3-months' period, and the amount of gold used during the preceding year.

§ 93.62 Form TG-25: Certification to Treasury Department by person engaged in the business of furnishing gold for use in industry, profession, or art.

(See § 54.51 of this chapter.) The applicant is required to submit information concerning his present holdings of gold, his requirements for fine gold for a 3-months' period, and the amount of gold sold during the preceding year.

§ 93.63 Form TG-26: Certification to accompany deposit of gold refined from gold-bearing material imported into the United States.

(See § 54.41 of this chapter.) The depositor is required to submit information concerning his business, the description of the gold, the importation of the gold-bearing materials and the refinement thereof.

§ 93.64 Form TG-28: Statement of depositor of gold recovered from Mint sweeps.

(See § 54.39 of this chapter.) The depositor is required to describe the gold, to certify that the gold contained in the deposit was recovered from sweeps purchased from a mint or assay office.

§ 93.65 Form TG-29: End-use certificate for semi-processed gold.

The purchaser of semi-processed gold from refiners in amounts in excess of \$200, is required to certify on this form as to the end-use of the gold purchased.

§ 93.66 Form TG-30: Statement of holder of melted gold.

(See § 92.2.) This statement is required of persons holding gold in melted or treated form which was required to be delivered to the United States under the gold orders or which is not authorized to be held under Part 54 of this chapter. Information is required concerning the acquisition, and the melting and treating of the gold.

§ 93.67 Form TG-31: Application for license to import gold coin.

(See § 54.20 of this chapter.) The applicant is required to submit a description of each coin, including date, denomination, country of issue, condition, and mint mark (if any), person from whom to be acquired and purpose for which it will be used.

FORMS RELATING TO SILVER MATTERS

§ 93.75 Application to purchase silver from the Treasury Department under the Act of July 31, 1946 (60 Stat. 750; 31 U.S.C. 316d).¹

The applicant is required to state that the amount of silver which he desires to purchase together with that on hand, will not exceed his normal requirements for a 2-months' period, and that the silver is "for manufacturing uses."

§ 93.76 Forms prescribed (for deposits) under the act of July 6, 1939.

The following forms are required to be submitted in connection with domestic silver mined subsequently to July 1, 1939, and deposited with a mint institution pursuant to section 4 of the act of July 6, 1939 (53 Stat. 998; 31 U.S.C. 316c) (see Part 80 of this chapter):

(a) *Form TSA-1: Affidavit and agreement by owner relative to silver mined subsequently to July 1, 1939.* This affidavit and agreement is required to be submitted by the owner of the silver deposited, and requires information concerning the date the silver was mined and the ownership thereof.

(b) *Form TSA-2: Affidavit of miner relative to silver mined subsequently to July 1, 1939.* This is a supporting affidavit required to be submitted with Form TSA-1, when applicable. The affiant is required to set forth information concerning silver which he has mined subsequently to July 1, 1939, the location of the mine, the place the silver was delivered and the amount thereof.

(c) *Form TSA-2A: Affidavit of miner relative to silver taken subsequently to July 1, 1939, from mine dumps and tailing piles which existed as such on midnight July 1, 1939.* This is also a supporting affidavit required to be submitted with Form TSA-1, when applicable. The affiant is required to swear that the silver was derived in the manner and from the sources set forth therein.

(d) *Form TSA-3: Report of person delivering silver pursuant to the provisions of section 4 of the act of July 6, 1939, and the regulations issued thereunder.* A detailed report is required of the acquisitions, holding and dispositions of silver mined subsequently to July 1, 1939.

§ 93.77 Forms prescribed (for deposits) under the act of July 31, 1946.

The following forms are required to be submitted in connection with domestic silver mined subsequently to July 1, 1946, and deposited with a mint institution pursuant to the act of July 31, 1946 (60 Stat. 750; 31 U.S.C. 316d) (see Part 80 of this chapter):

(a) *Form TSA-10: Affidavit and agreement by owner relative to silver mined subsequently to July 1, 1946.* This affidavit and agreement is required to be submitted by the owner of the silver deposited, and requires information concerning the date the silver was mined and the ownership thereof.

¹ Sales of silver for industrial use discontinued by order of the President of November 28, 1961.

(b) *Form TSA-20: Affidavit of miner relative to silver mined subsequently to July 1, 1946.* This is a supporting affidavit required to be submitted with Form TSA-10, when applicable. The affiant is required to set forth information concerning silver which he has mined subsequently to July 1, 1946, and location of the mine, the place the silver was delivered and the amount thereof.

(c) *Form TSA-20A: Affidavit of miner relative to silver taken subsequently to July 1, 1946, from mine dumps and tailing piles which existed as such on midnight July 1, 1946.* This is also a supporting affidavit required to be submitted with Form TSA-10, when applicable. The affiant is required to swear that the silver was derived in the manner and from the sources set forth therein.

(d) *Form TSA-30: Report of persons delivering silver pursuant to the provisions of the act of July 31, 1946, supplementing the provisions of section 4 of the act of July 6, 1939, and the regulations issued thereunder.* A detailed report is required of the acquisition, holdings and dispositions of silver mined subsequently to July 1, 1946.

(e) *Form 300: Verification of affidavit on Form TSA-20 or TSA-20A.* This form is used for verification of supporting affidavits which have been submitted with TSA-10 affidavits.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2750]

[Oregon 06529]

OREGON

Withdrawing National Forest Lands as Roadside Zones

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the minerals in the following described lands in the Umpqua National Forest are hereby withdrawn from prospecting, location, entry and purchase under the mining laws of the United States, for protection of existing forest roads and highways and adjacent roadside zones, as indicated:

WILLAMETTE MERIDIAN

UMPQUA NATIONAL FOREST

A strip of Land 330 feet on each side of the center line of the existing North Umpqua Forest Highway No. 47 and South Umpqua Forest Development road No. 284 where such roads traverse public lands through the following sections:

T. 25½ S., R. 1 E.,
Secs. 31 and 32.
T. 26 S., R. 1 E.,
Secs. 3 to 6, incl.;
Secs. 9 and 10;
Secs. 13 to 15, incl.;
Secs. 23 and 24.
T. 26 S., R. 1 W.,
Secs. 1 and 2;
Secs. 8 to 11, incl.;
Secs. 16 to 18, incl.
T. 28 S., R. 1 E.,
Sec. 36.
T. 29 S., R. 1 E.,
Secs. 1, 2, 10, and 11;
Secs. 15 to 18, incl.
T. 29 S., R. 1 W.,
Secs. 13 and 14;
Secs. 22 to 24, incl.;
Secs. 27, 33, and 34.
T. 30 S., R. 1 W.,
Secs. 4, 5, and 8.
T. 26 S., R. 2 E.,
Secs. 19 to 23, incl.
T. 28 S., R. 2 E.,
Secs. 28, 29, 31, and 32.

The area described contains approximately 3,068 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

AUGUST 13, 1962.

[Public Land Order 2751]

[Oregon 06535]

OREGON

Withdrawing National Forest Lands as Roadside Zones

By virtue of the authority vested in the President, and pursuant to the Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the minerals in the following described national forest lands in the Deschutes National Forest, Oregon, are hereby withdrawn from prospecting, location, entry, and purchase under the mining laws of the United States for protection of existing forest roads and highways and adjacent roadside zones, as indicated:

WILLAMETTE MERIDIAN

DESCHUTES NATIONAL FOREST

A strip of land 330 feet on each side of the center line of the existing highway and roads through the public land in the following sections:

Willamette Road Zone—State Highway No. 58

T. 23 S., R. 6 E.,
Secs. 8 to 10, incl., 14 to 16, incl., 23 to 25, incl., and 36, unsurveyed.
T. 24 S., R. 7 E.,
Secs. 6, 17, 20, 21, 27, 28, and 34.
T. 25 S., R. 7 E.,
Secs. 11 to 13, incl.
T. 25 S., R. 8 E.,
Secs. 19, 29, 32, 33.
T. 26 S., R. 8 E.,
Secs. 4 and 9;
Sec. 10, unsurveyed.

Fremont Road Zone—State Highway No. 31

T. 23 S., R. 11 E.,
Sec. 31.
T. 24 S., R. 11 E.,
Secs. 6 and 7;
Secs. 17 and 18;
Secs. 20 and 21;

Secs. 27 and 28;
Secs. 34 and 35.
T. 25 S., R. 12 E.,
Secs. 3 to 6, incl., 9 to 11, incl., 13, 14, and
23 to 25, incl.
T. 25 S., R. 13 E.,
Secs. 30 and 31.

Santiam Road Zone—U.S. Highway No. 20

T. 13 S., R. 7½ E.,
Sec. 24.
T. 13 S., R. 8 E.,
Secs. 19 to 21, incl., 23, 24, and 26 to 30,
incl.
T. 13 S., R. 9 E.,
Secs. 19, 29, 30, 32, and 33.
T. 14 S., R. 9 E.,
Secs. 3 to 5, incl.;
Secs. 10, 11, 13, 14, and 24.
T. 14 S., R. 10 E.,
Secs. 19, and 30 to 32, incl.
T. 15 S., R. 10 E.,
Sec. 5.

McKenzie Road Zone—U.S. Highway No. 126

T. 14 S., R. 8 E.,
Sec. 36.
T. 14 S., R. 9 E.,
Secs. 31 to 35, incl.
T. 15 S., R. 8 E.,
Sec. 1;
Secs. 2, 3, 9 to 11, incl., 15, 16, and 20,
unsurveyed.
T. 15 S., R. 9 E.,
Secs. 1, 2, and 4 to 6, incl.
T. 15 S., R. 10 E.,
Secs. 5 and 6.

**Cascade Lakes Road Zone—Forest Road
No. 46**

T. 18 S., R. 8 E.,
Secs. 3, 9 to 13, incl., 16, 20, 21, and 29 to
32, incl.
T. 18 S., R. 9 E.,
Secs. 17, 18, 20, 21, 25 to 28, incl., and 36.
T. 18 S., R. 10 E.,
Secs. 25 to 31, incl.
T. 18 S., R. 11 E.,
Secs. 14, 15, 20, 21, 22, 29, and 30.

The areas described total in the aggregate approximately 6,470 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

[Public Land Order 2752]

[88245, 88285]

ALASKA

**Excluding Lands From Chugach and
Tongass National Forests for Pur-
chase as Homesites**

By virtue of the authority vested in the President by section 1 of the Act of June 4, 1897 (30 Stat. 34, 36; 16 U.S.C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The following-described tracts of national forest lands in Alaska, occupied as homesites, are hereby excluded from the national forests indicated, and restored, subject to existing valid rights, for purchase as homesites under Section 10 of the Act of May 14, 1898 (30 Stat. 413; 48 U.S.C. 461), as amended:

CHUGACH NATIONAL FOREST

(1) Homesite No. 197, Snug Harbor Group, Lot 1, U.S. Survey No. 3531, 2.03 acres, approximately latitude 60°29½' N., longitude 149°47' W.

(2) Homesite No. 173, Snug Harbor Home-site Group, Lot 5, U.S. Survey No. 3531, 1.58 acres, approximately latitude 60°29'30" N., longitude 149°47' W.

(3) Homesite No. 152, Three Mile Bay Group, Lot 21, U.S. Survey No. 3601, 1.1 acres, approximately latitude 60°31'30" N., longitude 149°46' W.

(4) Homesite No. 170, Slaughter Creek Group, Lot 21, U.S. Survey No. 3306, 1.5 acres, approximately latitude 60°30'10" N., longitude 149°48' W.

TONGASS NATIONAL FOREST

(1) Homesite No. 1104, Elfin Cove Group, Lot 70, U.S. Survey No. 3175, 1.75 acres, approximately latitude 58°11'35.9" N., longitude 136°21' W.

(2) Homesite No. 350, Yakutat Group, Lot 1-A, U.S. Survey No. 3589, 2.95 acres, approximately latitude 59°33' N., longitude 139°44' W.

The tracts described aggregate approximately 11 acres.

JOHN A. CARVER, Jr.,
Assistant Secretary of the Interior.

[Public Land Order 2754]

[Anchorage 015239 and Juneau 012029]

ALASKA

Partly Revoking Public Land Order No. 960 of April 30, 1954

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 it is ordered as follows:

1. Public Land Order No. 960 of April 30, 1954, so far as it withdrew the following-described lands under jurisdiction of the Secretary of the Interior for the uses indicated, is hereby revoked.

a. For protection of the water supply of the City of Haines and the town of Port Chilkoot:

COPPER RIVER MERIDIAN

T. 31 S., R. 59 E.,
Sec. 1, S $\frac{1}{2}$;
Sec. 12, N $\frac{1}{2}$, SE $\frac{1}{4}$.

T. 31 S., R. 60 E.,
Sec. 6, lots 2 and 3;
Sec. 7, lots 1, 2, 3, and 4.

Containing 962.61 acres.

b. For protection and preservation of scenic areas and for recreational purposes:

COPPER RIVER MERIDIAN

T. 30 S., R. 59 E.,

Sec. 35, lot 1.

T. 31 S., R. 59 E.,

Sec. 2, lot 51;

Sec. 3, lots 4 to 8, inclusive, and lots 14, 19, 23, 30, 31, and 36;

Sec. 10, lot 1;

Sec. 11, lots 6, 17, and 18.

Containing 38.66 acres.

2. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to settlement and to filing of applications, selections and locations in accordance with the following:

(a) Until 10:00 a.m. on October 14, 1962, the State of Alaska shall have a preferred right to select the lands in accordance with the provisions of the act of July 28, 1956 (70 Stat. 709; 43 U.S.C. 46-eb), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339).

(b) Applications and selections under the nonmineral public land laws may be presented to the Manager named below beginning on the date of this order. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and

confirmation will be adjudicated on the facts presented in support thereof. All other applications will be subject to the applications and claims mentioned in this paragraph.

(c) All valid applications and selections under the nonmineral public land laws, other than those coming under subparagraphs (a) and (b) above, presented prior to 10:00 a.m. on October 14, 1962, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

(d) The lands have been open to applications and offers under the mineral leasing laws. They will be open to settlement under the homestead and Alaska homesite laws, and to location under the United States mining laws beginning at 10:00 a.m. on October 14, 1962.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

JOHN A. CARVER, JR.,

Assistant Secretary of the Interior.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Parts 1004 and 1010]

[Docket Nos. AO-160-A25, AO-276-A5]

MILK IN THE PHILADELPHIA, PENNSYLVANIA, AND WILMINGTON, DELAWARE, MARKETING AREAS

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Hotel Adelphia, 13th and Chestnut Streets, Philadelphia, Pennsylvania, beginning at 10:00 a.m., e.d.t., on September 13, 1962, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Philadelphia, Pennsylvania, and Wilmington, Delaware, marketing areas.

The public hearing is for the purpose of receiving evidence with respect to the economic and emergency marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by Inter-State Milk Producers' Cooperative:

Proposal No. 1. Eliminate § 1004.53 from the order.

Proposal No. 2. Amend § 1004.61(a) to eliminate the words: "Unless, notwithstanding that it would be regulated under this part, it is nevertheless regulated under such other order."

Proposed by Borden-Castanea, Division of the Borden Company:

Proposal No. 3. Amend § 1004.47 to subtract from the total product pounds in Class I milk, the product pounds of receipts from Federal Order No. 2 in consumer-type packages which are allocated to Class I sales in Federal Order No. 4. Also permit the subtraction from Class I of the receipts from Federal Order No. 2 of products in bulk tank or can shipments subject to the allocation designated above, for processing and packaging at a No. 4 handler's plant to the extent of the total sales in Federal Marketing Order No. 2.

Proposal No. 4. Amend § 1004.53 of the Philadelphia order to better coordinate such order with the New York-New

Jersey order as to the pricing of certain fluid milk products such as half and half, chocolate flavored drinks, butter-milk and certain dietary products.

Proposal No. 5. Amend § 1004.61 to clarify the meaning so that it is clear that a plant will not be regulated under Order No. 4 and any other Federal order at the same time.

Proposed by the Milk Distributors Association of the Philadelphia Area, Inc.:

Proposal No. 6. Review generally the definitions of producer, producer milk, producer milk plant (fluid milk plant under the Wilmington order), and the application of order provisions to any plant which also meets the pooling requirements under another Federal order to determine whether such provisions of the respective Philadelphia and Wilmington orders require further coordination with the provisions of other orders issued pursuant to the Act.

Proposed by the Milk Marketing Orders Division, Agricultural Stabilization and Conservation Service:

Proposal No. 7. Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, 1528 Walnut Street, Philadelphia 2, Pennsylvania, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Signed at Washington, D.C., on August 15, 1962.

ROBERT G. LEWIS,
*Deputy Administrator, Price
and Production, Agricultural
Stabilization and Conserva-
tion Service.*

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release 34-6874]

REPRESENTATIONS CONCERNING SALE OR REDEMPTION OF CERTAIN SECURITIES

Notice of Proposed Rule Making

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed rule under section 10(b) of the Securities Exchange Act of 1934. The proposed rule would provide that it shall constitute a manipulative or deceptive device or contrivance within the meaning of section 10(b) of the Act for any person, in connection

with the offering or sale of any equity security, to make any representation to the effect that (1) the offering price of such security is based upon and varies with the current value of its proportionate share of the assets of the issuer, or (2) such security is or will be redeemable at the option of the holder at a price which is based upon and varies with the current value of such proportionate share, unless substantially all of the assets of the issuer consist of cash, cash items and securities (other than mortgages and other liens on and interest in real estate) for which market quotations are readily available and which are readily marketable.

This matter has become of particular interest in connection with proposals by certain real estate investment companies to offer redeemable securities. However, the proposed rule as drafted would apply to any company seeking to offer securities in the manner or of the character described in the rule. One purpose of the rule is to prohibit the offering of securities on the basis of the value of their proportionate share of the assets of the company in cases where the nature of the company's assets is such that it is impossible to determine their value with sufficient precision to compute the offering price of the securities on that basis. The rule would also prohibit the offering of securities of a company as "redeemable" securities when the assets of the company are such that their value cannot be precisely determined for the purpose of redemption and are not sufficiently liquid to make possible their conversion into cash for the purpose of redeeming the securities.

The text of the proposed rule follows:

§ 240.10b-10 Representations concerning sale or redemption of certain securities.

It shall constitute a "manipulative or deceptive device or contrivance" as used in section 10(b) of the Act for any person in connection with the offering or sale of any equity security of any issuer to make any representation to the effect that—

(a) the offering price of such security is based upon and varies with the current value of its proportionate share of the assets of the issuer represented by such security; or

(b) such security is or will be redeemable at the option of the holder at a price which is based upon and varies with the current value of such proportionate share,

unless substantially all of the assets of the issuer consist of cash, cash items and securities (other than mortgages and other liens on and interests in real estate) for which market quotations are readily available and which are readily marketable.

(Secs. 10(b), 23(a), 48 Stat. 891, 901, as amended; 15 U.S.C. 78j, 78w)

All interested persons are invited to submit their views and comments on the proposed rule, in writing, to the Securities and Exchange Commission, Washington 25, D.C., on or before September 28, 1962. Except where it is requested that such communications not be disclosed, they will be considered available for public inspection.

By the Commission.

[SEAL]

ORVAL L. DuBOIS,
Secretary.

ATOMIC ENERGY COMMISSION

STATE OF NEW YORK

Proposed Agreement for Assumption of Certain AEC Regulatory Authority

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of New York for the assumption of certain of the Commission's regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A resume, prepared by the State of New York and summarizing the State's proposed program, was also submitted to the Commission and is set forth below as Appendix "A" to this notice. A copy of the complete text of the New York program, including proposed New York regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., or may be obtained by writing to the Director, Office of Radiation Standards, United States Atomic Energy Commission, Washington 25, D.C. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them in triplicate to the Secretary, U.S. Atomic Energy Commission, Washington 25, D.C., within 30 days after initial publication in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, as well as other agreements which may be entered into under section 274 of the Atomic Energy Act, as amended, were published as Part 150 of the Commission's regulations in FEDERAL REGISTER issuance of February 14, 1962; 27 F.R. 1351. In reviewing this proposed agreement, interested persons should also consider the aforementioned exemptions.

Dated at Germantown, Md., this 9th day of August 1962.

For the Atomic Energy Commission.

HAROLD D. ANAMOSA,
Acting Secretary
to the Commission.

Agreement Proposed by the State of New York Pursuant to Section 274 of the Atomic Energy Act of 1954, as Amended, for the Assumption of Certain of the Atomic Energy Commission's Regulatory Authority

Whereas the United States Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act) to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8, and section 161 of the Act with respect to byproduct materials, source ma-

terials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas the Governor of the State of New York is authorized under section 462 of the New York State Atomic Energy Law to enter into this Agreement with the Commission; and

Whereas the Governor of the State of New York certified on July 20, 1962, that the State of New York (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas the Commission found on -----, 1962, that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas the State and the Commission recognize the desirability and importance of cooperation between the Commission and the State in the formulation of standards for protection against hazards of radiation and in assuring that State and Commission programs for protection against hazards of radiation will be coordinated and compatible; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemption from licensing of those materials subject to this Agreement;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

Article I. Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and section 161 of the Act with respect to the following materials:

- A. Byproduct materials;
- B. Source materials; and
- C. Special nuclear materials in quantities not sufficient to form a critical mass.

Article II. This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

- A. The construction and operation of any production or utilization facility;
- B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;
- C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

Article III. Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such

product except pursuant to a license or an exemption from licensing issued by the Commission.

Article IV. This Agreement shall not affect the authority of the Commission under subsection 161 b or i of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

Article V. The Commission will use its best efforts to cooperate with the State and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulation of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

Article VI. The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

Article VII. The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

Article VIII. This Agreement shall become effective on October 15, 1962, and shall remain in effect unless, and until such time as it is terminated pursuant to Article VII.

APPENDIX "A"

RADIATION CONTROL IN THE STATE OF NEW YORK

I. Introduction. The State of New York has had a comprehensive program for the control of the possession and use of radiation sources since 1955. The program described herein constitutes a continuation of this previously existing program as modified to accommodate responsibilities which the State will assume and the United States Atomic Energy Commission will discontinue under a contemplated agreement between the Commission and the State.

Background. There are three agencies within the State with primary regulatory responsibility regarding the health and safety of the possession and use of radiation sources. Each has its own jurisdiction and each has promulgated its own regulatory code. The State Department of Health is responsible for public and medical health throughout the State, except for New York City in which the New York City Department of Health is so responsible. The State

Department of Labor is responsible for industrial health and safety throughout the entire State, including New York City. Collectively, the authority of these three agencies reaches all radiation sources subject to the State's jurisdiction.

In 1955, the State Department of Health was statutorily authorized to "supervise and regulate the public health aspects of the use of ionizing radiation and the handling and disposal of radioactive wastes" and, in 1960, to "license atomic energy activities within the State affecting or likely to affect public health and relating to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass". Within the State Department of Health there is the State Public Health Council, which is statutorily authorized to establish, subject to the approval of the State Commissioner of Health, the State Sanitary Code. The Code "may deal with any matters affecting the security of life or health or the preservation and improvement of public health in the State of New York, and with any matters as to which jurisdiction is conferred upon the public health council". A 1960 amendment to the State Public Health Law expressly provides that the State Sanitary Code may "require that application be made for a license to possess or use atomic energy byproduct materials, source materials and special nuclear materials in quantities not sufficient to form a critical mass and prescribe the use to which any such materials may be put". Pursuant to the original statutory authority Chapter XVI (entitled "Ionizing Radiation") of the State Sanitary Code was made effective in 1955.

Within the State Department of Labor there is the State Board of Standards and Appeals with statutory power to make rules for proper sanitation and for guarding against and minimizing fire hazards, personal injuries and diseases in industrial facilities. The State Labor Law provides further that "Whenever the board finds that any industry, trade, occupation or process involves such elements of danger to the lives, health or safety of persons employed therein as to require special regulation for the protection of such persons, the board may make special rules to guard against such elements of danger by * * * requiring licenses to be applied for and issued by the Department as a condition of carrying on any such industry, trade, occupation or process * * *". Pursuant to this statutory authority, Rule No. 38 (entitled "Radiation Protection") of the State Industrial Code was made effective in 1955.

The New York City Department of Health has authority to regulate all matters affecting health over which the City has jurisdiction under its "Home Rule" charter from the State. Within the City Department of Health there is the City Board of Health, which is given the authority to promulgate the City Health Code embracing "all matters and subjects to which the power and authority of the Department extends * * *" and to "grant, suspend or revoke permits for businesses or other matters in respect to any subject regulated by the Department". Pursuant to this authority, Article 6 (entitled "Control of Radiological Hazards") of the City Sanitary Code, was made effective in 1958. This Article was superseded in 1959 by Article 175 (entitled "Radiological Hazards") of the City Health Code.

Coordination of the regulation of atomic energy activities within the state was begun by executive action in 1955, through the establishment of the Council on the Use of Nuclear Materials, whose functions included "to coordinate safety activities related to atomic energy in New York State * * * (and) to coordinate liaison relationships with the Atomic Energy Commission". In 1956, also by executive action, the Atomic

Energy Advisory Committee was created to "assist the Governor and his Council on the Uses of Nuclear Materials in expanding industrial applications of atomic energy and maintaining the health and safety of workers in plants using nuclear materials", and also to produce "specific recommendations for * * * necessary legislation".

The enactment of the State Atomic Energy Law on March 9, 1959, placed the coordination of regulatory atomic energy activities within the state on a statutory basis. This law established the Office of Atomic Development, headed by a director responsible to the Governor. With respect to regulatory matters, the functions, powers and duties of the Office include advising and assisting the Governor and the Legislature on atomic energy matters; coordinating the atomic energy activities of the agencies of the state and its political subdivisions; and correlating the atomic energy activities of the state and its political subdivisions with similar activities of the federal government and the governments of other states.

In order to assist the Office to fulfill its coordinating function, the State Atomic Energy Law requires that all agencies of the state and its political subdivisions keep the Office fully and currently informed as to their activities relating to atomic energy or ionizing radiation; and that no rule or regulation or amendment thereto, primarily and directly related to atomic energy, take effect until 90 days after submittal to the Office, unless such waiting period is waived by the Governor or the director. In addition, the legislation established a State Atomic Energy Coordinating Council, consisting of the director as chairman and such other persons, including representatives of agencies of the State and its political subdivisions, as the Governor may appoint, to advise, assist and make recommendations to the director with respect to the coordination of atomic energy activities of agencies of the state and its political subdivisions. The present membership of the Council includes the New York City Commissioner of Health, the State Industrial Commissioner, the State Commissioners of Health, Education and Commerce, and the Chairman of the State Public Service Commission.

During the summer of 1959, at hearings of the Joint Congressional Committee on Atomic Energy on "Federal-State relationships in the Atomic Energy Field", representatives of the State testified in favor of the amendments to the Atomic Energy Act of 1954 which authorize the Atomic Energy Commission to discontinue certain of its regulatory activities within individual states upon execution of an agreement with such states. After enactment of such federal legislation (Public Law 86-373), the New York State Legislature, in early 1960, adopted an amendment to the State Atomic Energy Law expressly authorizing the Governor to enter into an agreement with the Commission relating to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass.

Development of modified program. The principal elements of the program for radiation control in the State are the State Sanitary Code, State Industrial Code and New York City Health Code, and, so far as coordination is concerned, the applicable provisions of the State Atomic Energy Law.

The regulatory codes have been modified by the three regulatory agencies, in cooperation with the Office of Atomic Development, in order to achieve:

1. An integrated program of radiation control covering not only activities over which authority will be discontinued by the Atomic Energy Commission (use of byproduct material, source material, and special nuclear materials in quantities not sufficient to form a critical mass), but also activities over

which State agencies have exercised exclusive jurisdiction (use of naturally-occurring and accelerator-produced radioisotopes and radiation-producing equipment, e.g., X-ray equipment).

2. Uniformity, insofar as practicable, among the three codes, taking into consideration, however, necessary distinctions arising from the differing subject matters and conditions with which each agency is concerned and the previously existing code structure of each agency.

3. Compatibility between the State's radiation-control program and the Atomic Energy Commission's program for the regulation of like radioactive materials, as required by Section 274.d(2) of the Atomic Energy Act of 1954, as amended.

In developing the modified State program to achieve the foregoing objectives, the agencies concerned agreed that the substantive content of the program, i.e., the radiation protection standards, should be predicated both now and in the future upon the guides of the Federal Radiation Council as approved by the President and, where the Federal Radiation Council has been silent, pertinent recommendations of the National Committee on Radiation Protection and Measurements.¹

¹ In response to a request by the Commission for clarification of this paragraph, the Director of the New York Office of Atomic Development submitted the following reply:

Copy

AUGUST 7, 1962.

"DR. CLIFFORD K. BECK,
Acting Director of Regulation,
U.S. Atomic Energy Commission,
Washington 25, D.C.

"DEAR DR. BECK: During the course of our telephone conversation of August 6, 1962, you expressed concern that the following paragraph on page 4 of the introduction to the narrative material entitled 'Radiation Control in the State of New York,' submitted to the Commission by Governor Rockefeller on July 20, may be misinterpreted as inconsistent with the continuation of compatibility between the programs of the State and the Commission for the regulation of like materials:

"In developing the modified State program to achieve the foregoing objectives, the agencies concerned agreed that the substantive content of the program, i.e., the radiation protection standards, should be predicated both now and in the future upon the guides of the Federal Radiation Council as approved by the President and where the Federal Radiation Council has been silent, pertinent recommendations of the National Committee on Radiation Protection and Measurements."

"I would like to assure you that the pertinent regulations of the Commission, as well as the recommendations of the Federal Radiation Council and the National Committee on Radiation Protection and Measurements, will be utilized in achieving the desired objective of continuing compatibility.

"Sincerely yours,

OLIVER TOWNSEND,
Director."

Copy

With respect to other substantive matters, such as precautionary procedures, e.g., surveys, posting, labeling, existing Commission regulations were used as models. Accordingly, regulations on these subjects within the State program are substantially similar to Commission regulations, although some details were either condensed or eliminated, and several additional requirements were specified. Similarly, the Commission's regulations pertaining to licensing procedures were used as models, with some condensation and modification.

In general, modification of the previous regulatory codes has resulted in a State program which is compatible with the Commission's program but which differs from the Commission's program in several respects, primarily because of the applicability of the State's integrated program to all radiation sources, including those whose possession and use is subject to registration rather than licensing.

Public hearings on the proposed modifications of Industrial Code Rule No. 38, as required by law, were held by the State Board of Standards and Appeals in Syracuse on March 14, 1962, and in New York City on March 16, 1962. The New York City and State Departments of Health solicited comments and received advice from various interested groups and individuals within the City and State in accordance with their customary practices. Modifications of the Regulatory code of each department are scheduled to go into effect on October 15, 1962.

II. Program description—A. Radiation protection standards. The regulations specifying radiation protection standards which are contained in each of the regulatory codes are briefly described below. Except in certain limited respects, these radiation protection standards are identical in substance to existing provisions in Part 20 of the Commission regulations. It is the present intent of each of the three departments that the regulations specifying the radiation protection standards and the provisions pertaining to additional requirements and the granting of exemptions or variations will be administered in accordance with existing Commission practice. However, details pertaining to such administration found in Commission regulations have not been included in the codes because of the limited number of persons within the State to whom they would be applicable. It is important to note that these radiation protection standards will, except in certain specified respects, be uniformly applicable to regulated users of all radiation sources within the State, including all radioactive materials and radiation-producing equipment.

1. Permissible doses, levels, and concentrations. The three codes contain uniform provisions with respect to permissible occupational doses from external exposure and from concentration of airborne radioactive material and permissible doses in uncontrolled areas from external exposure and from concentration of airborne radioactive material.

The limits contained in the codes closely follow the radiation protection guides of the Federal Radiation Council and the recommendations of the National Committee on Radiation Protection and Measurements. Accordingly, permissible occupational doses are specified for periods of any 13 consecutive weeks and utilize the values specified for such 13 week periods by the Council. The values contained in the regulations of the Atomic Energy Commission, which are based upon the concept of fixed calendar quarters, were not adopted.

Among other excluded details, the codes do not specify under what conditions exposures in excess of permitted concentrations or radiation levels will be authorized. Such details have been excluded as unnecessary, but the regulatory departments intend to be guided by the Commission practice which is reflected in existing Commission regulations.

2. Precautionary procedures. The codes contain requirements with respect to surveys, checks and tests; personnel monitoring,

caution signs, labels, signals, and control devices; instruction of personnel; posting of notices to employees; and securing of radioactive materials. These requirements are substantially uniform and identical in substance to present Commission requirements. Some differences have arisen since the State program covers radiation sources in addition to byproduct, source and special nuclear material. For example, each code requires the designation of a radiation safety officer and specifies his qualification and responsibilities. This requirement is particularly necessary in view of the fact that procedures for use of certain radiation sources will not necessarily be preevaluated, since such sources will be subject to registration rather than licensing. Similarly, requirements with respect to such items as surveys, checks and tests are more explicit in the State program. Some or all of the codes also contain additional provisions with respect to such items as vacated premises; exposure of food to ionizing radiation; protection against fire hazards, etc. On the other hand, the codes specifically exclude some radiation sources, outside of the purview of Commission responsibility, from certain requirements, e.g., X-ray equipment used for medical and dental purposes need not be labeled and installations containing only such equipment need not be posted.

3. Waste disposal. All three codes permit disposal of radioactive material by transfer to an authorized recipient and by release to uncontrolled areas in concentrations which do not exceed those specified in the applicable regulations. The three codes forbid disposal by incineration. The State Sanitary Code and City Health Code permit disposal of specified concentrations into sanitary sewer systems. The State Sanitary Code permits burial of limited quantities under specified conditions, as do Commission regulations, but imposes the additional requirement of prior notification before a burial ground is established. The City Health Code does not permit burial of radioactive material within New York City. The Industrial Code permits release to sanitary sewer systems or burial in soil in accordance with applicable provisions of the City Health Code and State Sanitary Code. None of these codes specifies the requirements for additional methods of disposal, but permission for such methods could be requested as an exemption or variation from specific regulatory requirements, and in acting upon requests, current Commission practices will be considered.

4. Transportation. The State Sanitary Code and State Industrial Code permit interstate shipment of radioactive materials if the shipment complies with such regulations of relevant federal agencies as would be applicable if it were in interstate commerce or if the shipment is specifically approved by the appropriate department. The New York City Health Code retains a provision with respect to shipments of radioactive materials which was adopted in 1960, after consultation with the Atomic Energy Commission, and requires prior notification and approval of route of shipments of radiation sources which may involve a high degree of hazard, as listed in a declaration published by the New York City Health Commissioner in the City Record.

It may also be noted that the State Public Service Commission requires that the regulations of the Interstate Commerce Commission relating to the transportation of explosives and other dangerous articles be followed by motor carriers within its jurisdiction. This requirement was first imposed in an order of the Public Service Commission

of May 15, 1955 (Case MT-7482) and is now included in Part 821 of its regulations.*

5. Records and reports. The three codes require that accurate and complete written records be kept of results of required surveys, checks and tests; transfer, receipt and disposal of radioactive materials; occupational doses of monitored personnel; results of medical evaluation services; and doses required to be reported. The codes specify that personnel exposure records must be kept for five years after either termination of the individual's employment or the date of recording, whichever is later, and can be disposed of only by transfer to the regulatory department. Other records need be preserved only for a period of three years commencing on the date of occurrence of the subject of the record.

The codes require immediate notification to the appropriate department of any theft or loss of a radiation source, of any incident which caused or threatened to cause any individual to receive a dose in excess of permitted limits, and of any level of radiation from or release of concentrations of radioactive materials in excess of permitted limits. Follow-up action is required and a subsequent written report may be required by the appropriate department.

The codes require that previous employees be supplied reports of doses and exposures upon request. Annual reports to employees are also required upon request. If any report of possible exposures is required to be submitted to the regulatory department, such report must be automatically provided to the employee under the State Sanitary Code and the State Industrial Code and the providing of such report to the employee may be ordered by the New York City Health Department under the City Health Code.

6. Professional practitioners and related provisions. The State Sanitary Code and New York City Health Code, which govern the intentional internal or external administration of radiation or radioactive materials to any individual, specify that such administration is permitted only by a person licensed or otherwise authorized to practice medicine, dentistry, podiatry or osteopathy under the State Education Law, or by a person under the supervision of such professional practitioner. With respect to such use of radioactive materials required to be licensed by the Health Departments, an application form similar to that presently used by the Atomic Energy Commission will be supplied.

The State Sanitary Code and New York City Health Code also contain provisions requiring reports by professional practitioners treating or diagnosing radiation illness, injury or certain exposures and specifying procedures to be followed with respect to cadavers containing radioactive materials.

*Part 821—Transportation of Explosives and other Dangerous Articles, Section 821.1. The rules and regulations prescribed now or to be prescribed in the future by the Interstate Commerce Commission relating to the transportation of explosives and other dangerous articles by motor carriers are adopted and prescribed for all motor carriers of property.

Section 821.2. All carriers transporting or holding themselves out to transport articles named in the said rules and regulations shall, on or before April 1, 1956, establish such rules by participation in the Motor Carriers' Explosives and Dangerous Articles Tariff No. 8 P.S.C.-N.Y.-MT-No. 4 as supplemented, and in any successive issues thereof as published by the American Trucking Associations, Inc., agent.

The State Industrial Code does not apply to human use of a radiation source which is licensed or authorized by the State or City Departments of Health. The State Department of Labor may perform inspection for these departments of medical users located within industrial installations.

The State Sanitary Code contains extensive provisions with respect to the use of radiation equipment in the diagnosis or therapy of individuals. These provisions are based on the recommendations of the National Committee on Radiation Protection and Measurements. The New York City Health Code requires that these same recommendations, contained in NCRP Handbook 76, or equivalent safeguards, be observed.

B. Program Administration—1. Licensing. Each code specifies that no person shall transfer, receive, possess or use any byproduct material, source material or special nuclear material in quantities not sufficient to form a critical mass without a license (or permit, as termed in the New York City Health Code) from the appropriate department. The New York City Health Code additionally requires a permit for all other radioactive materials, except as specified.

Exemptions from the licensing requirements are provided in all three codes for certain quantities of byproduct and source material and for certain devices which, however, are subject to the radiation protection standards within each code and to specified conditions. The use and possession of these items are thus regulated in a similar manner as generally licensed items under Commission regulations, although the term "general license" is not used in the codes.

Also exempt from the licensing requirements are certain luminous devices, concentrations of radioactive material, natural ore containing source material, items containing less than 0.05 percent source material, certain products, certain radioactive materials of specified radioactivity, and certain radiation equipment. These items, as they are under Commission regulations, are completely exempt from the requirements of other provisions of the codes but, in some cases, are subject to specified conditions.

Exemptions are also provided for radioactive materials to the extent that such materials are subject to regulation as provided for by law by the State Public Service Commission, Interstate Commerce Commission, the Coast Guard, the Civil Aeronautics Board and the Post Office Department, although such materials will still be subject to the transportation provision of the New York City Health Code.

A single license application form, applicable to all radioactive materials subject to licensing, will be used by all three departments. In addition, applicants for licenses covering human use will be required to submit an appendix to the application, generally similar to AEC Form 313a. Instructional documents specifying additional information required will be provided to applicants for licenses covering multiple quantities or types of unsealed radioactive materials, manufacturing of devices, or industrial radiography. The information required from such applicants is similar to that required by present Commission regulations. Other application forms and instructional documents will be developed as the need arises.

A license applicant will be required to demonstrate that his proposed use, equipment, facilities, procedures and personnel are adequate to protect public health and safety and to minimize danger to life and property from radiation hazards prior to the issuance of a license. Pre-licensing evaluation of applications will include inspections, as warranted in appropriate cases.

The codes incorporate certain conditions into each license and additional conditions may be set forth or incorporated by refer-

ence in each license at any time. The codes specify the manner in which licenses may be renewed, amended, suspended or revoked.

Upon the effective date of each amended code, the holder of a specific license heretofore issued by the Atomic Energy Commission will be deemed to hold an identical license pursuant to the appropriate code, which license shall expire upon the expiration date specified in the license or ninety days after receipt of a notice of expiration from the appropriate department. Each such licensee is required to comply with the conditions of his license and of the appropriate code.

Each code permits certain holders of licenses issued by the Atomic Energy Commission or any state which has entered into an effective agreement with the Commission to use the licensed radioactive materials within the jurisdiction of each department for a limited period of time without obtaining an additional license. Such users will be required to file certain information, including a copy of the license, with the appropriate department prior to use, although oral notification may be acceptable at the discretion of the department. Such users will be subject to the regulations of the appropriate department.

No fees will be charged under the State Sanitary Code or Industrial Code. Under the New York City Health Code a fee of \$15 will be charged for each initial permit and of \$10 for each renewal. No person will be required to pay a plurality of fees for a single installation. Accordingly, if a permit applicant currently holds a valid permit for activities at the same installation, or has registered such installation, no additional fee will be payable.

2. Registration. Radiation-producing equipment within the state will continue to be subject to registration provisions except as may be specified in each code. Radioactive materials other than agreement materials will continue to be subject to registration provisions under the State Sanitary Code and State Industrial Code except as may be specified. With certain limited exceptions, radioactive materials are not subject to registration under the New York City Health Code, which requires licensing of all materials.

Registrants will be required to notify the appropriate department of changes in registered information. Registrations will be valid indefinitely under the State Sanitary Code and State Industrial Code but will be subject to renewal every two years under the New York City Health Code.

3. Enforcement. In addition to inspections conducted for the purpose of evaluating the program proposed in a license application, inspections will also be conducted of all licensed and registered installations on a periodic basis. The frequency of inspections will depend on the relative hazards associated with the source of radiation and how it is to be used. When warranted immediate inspections will be conducted of especially significant registered installations. An evaluation will be made of all reported radiation incidents and an inspection will be conducted of all incidents that are considered to present significant radiation hazards.

While inspections may vary in scope, they will be sufficiently comprehensive to determine whether the licensee or registrant is complying with the appropriate regulatory requirements. An inspection will usually entail a comprehensive review of the licensee's or registrant's facilities, equipment, training and qualifications of personnel, and operating procedures, including handling, storage and disposal of radiation sources, survey and monitoring practices, labeling of sources, posting and control of areas, etc. In addition to observing operations, personnel will be interviewed and

pertinent records examined. When appropriate, an inspection may include independent measurements and evaluations of radiation levels and concentrations of radioactive materials.

4. Administrative procedures. The State Board of Standards and Appeals is by law required to hold public hearings prior to modifying the State Industrial Code. Neither the State nor New York City Departments of Health is required by law to hold public hearings with respect to any modifications of its regulations, but each may do so at its discretion, although customary practice would be to obtain the advice and comments of interested groups and persons.

The State Sanitary Code provides for a public hearing upon timely request by an applicant if his license application is disapproved. Except in any case of wilfulness or in which the public health or safety requires otherwise, licenses may not be amended, suspended or revoked, nor may additional requirements be imposed nor radioactive material required to be surrendered without either obtaining the consent of the person involved or notifying such person of the contemplated action, giving him a reasonable opportunity to demonstrate or achieve compliance with all lawful requirements, and granting a public hearing upon request.

Actions taken by the State Industrial Commissioner are subject to review by the State Board of Standards and Appeals under the State Labor Law. In addition, the Industrial Code requires that, except where action is needed to secure safety, the Commissioner shall not suspend, revoke or restrictively amend a license without first giving the licensee reasonable notice and an opportunity to be heard.

Under section 5.19 of the New York City Health Code, whenever the City Commissioner of Health suspends, revokes, or refuses to issue or renew a permit, the aggrieved party may appeal such action to the Board of Health of the Department of Health of the City of New York. Under section 3.03 of the Code, except where the public health requires immediate action, the Department may not seize, embargo, condemn, destroy, render harmless or otherwise dispose of any material until the owner or person in control is notified and is given an opportunity to be heard by such personnel of the Department as the Commissioner may designate. A similar notice and opportunity to be heard must be granted under section 175.11(e) of the Code prior to the issuance of any order requiring a person to take additional precautions and procedures to protect public health and safety, except where immediate action is required.

Article 78 of the State Civil Practice Act provides a method of review in the courts, under certain circumstances, of the actions of each of the three regulatory departments.

5. Coordination. Coordination of the State program for the control of radiation hazards is facilitated through the direct functions of the State Office of Atomic Development. All agencies and political subdivisions of the State are required to keep the Director of the Office fully and currently informed as to their activities relating to atomic energy or ionizing radiation. The State Atomic Energy Law also provides that no rule, regulation or ordinance or amendment thereto or repeal thereof, primarily and directly relating to atomic energy, shall become effective until ninety days after it has been submitted to the Director of the Office, unless either the Governor or the Director waives such waiting period.

The State Atomic Energy Law also established the State Coordinating Council on Atomic Energy. The Coordinating Council has been functioning since 1959, and its recommendations have been instrumental in developing the present program.

To effect maximum coordination of the licensing of radioactive materials within the State, the Coordinating Council has established a Committee on Licensing to be advisory to the regulatory departments. The Committee will receive and forward to the appropriate department for processing all applications for licenses. In questionable cases, the Committee can be called on to resolve jurisdictional questions and to submit to the appropriate department a recommendation on the merits of issuing a license. The voting membership of the Committee consists of the Director of the Office of Radiation Control, New York City Department of Health; the Special Assistant for Radiological Health, State Department of Health; and the Director of the Division of Industrial Hygiene, State Department of Labor. The Nuclear Health Physicist of the Office of Atomic Development acts as secretary of the Committee.

III. Organization and personnel—A. *State Department of Health.* The Special Assistant to the Commissioner on Radiological Health under the State Department of Health has been assigned the responsibility for coordinating the control of public health and safety aspects of the use of all radiation sources in medical, dental, veterinarian, educational, diagnostic, and similar institutions outside New York City.

1. *Licensing.* Preevaluation of license applications with respect to training and experience of applicants, dosage, route of administration, metabolic fate, and new or unusual human use will be performed by the Special Assistant on Radiological Health. Medical experts will be utilized for advice on new or unusual human applications.

Preevaluation of license applications with respect to proposed instrumentation, storage facilities, shielding methods, personnel monitoring, waste disposal techniques and other technical procedures will be performed in the Bureau of Radiological Health Services by an Associate Sanitary Engineer and a Senior Sanitary Engineer.

Both the Office of the Special Assistant on Radiological Health and the Bureau of Radiological Health Services may call on the scientific specialists available in the Division of Laboratories and Research and may obtain assistance from legal, public relations, training and other disciplines within the State Department of Health.

2. *Inspections.* Inspections of licensed users of radiation sources will be performed in the Bureau of Radiological Health Services by an Associate Sanitary Engineer, one Senior Sanitary Engineer and one Assistant Sanitary Engineer.

Scientific specialists in the Division of Laboratories and Research and in other divisions of the Department will be available for technical support. One other Assistant Sanitary Engineer assigned to Radiological Health Services primarily in the field of X-ray protection will also be available for inspection assistance. Inspections of registered sources are routinely handled by local health officers.

B. *State Department of Labor.* The Director of the Division of Industrial Hygiene under the State Department of Labor has been assigned the responsibility for controlling the health and safety aspects of the use of radiation sources in industrial installations throughout the State.

1. *Licensing.* Prior evaluation of license applications will be performed in the Radiological Health Unit by an Associate Industrial Hygiene Physician and a Principal Radiophysicist.

2. *Inspections.* Inspections of licensed users of radiation sources will be performed in the Radiological Health Unit by three Senior Radiation Physicists and an Industrial Engineer (Radiophysics specialist). Four Industrial Hygiene Engineers with training in radiation protection will conduct inspections of registered installations and

will be available for assistance with respect to licensed installations.

C. *New York City Department of Health.* The Director of the Office of Radiation Control in the New York City Department of Health has been assigned responsibility for the control of the public health and safety aspects of the release of radioactivity to the environment from all sources, and of the health and safety aspects of the use of radiation in medical, dental, veterinarian, educational, diagnostic, and similar institutions within the City of New York.

1. *Licensing.* Prior evaluation of license applications will be performed in the Office of Radiation Control by the Assistant Director of the Office, a Senior Public Health Sanitarian, and a Public Health Sanitarian. Medical experts will be utilized for advice on new and unusual human applications.

2. *Inspections.* Inspections of licensed and registered radiation sources will be performed in the Office of Radiation Control by the Senior Public Health Sanitarian, assisted by a Public Health Sanitarian. Fourteen other Public Health Sanitariums will be available for assistance.

CORNELL UNIVERSITY

Notice of Extension of Completion Date

Please take notice that the Atomic Energy Commission has issued an order extending to October 15, 1962 the latest completion date specified in Construction Permit No. CPRR-31 for the construction by Cornell University of the pool-type nuclear reactor to be located at Ithaca, New York.

Copies of the Commission's order and of the application by Cornell University are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Germantown, Md., this 10th day of August 1962.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of
Licensing and Regulation.

[F.R. Doc. 62-8301; Filed, Aug. 17, 1962; 8:45 a.m.]

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Notice of Hearing on Amendment to Operating License for Nuclear Facility

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations in Part 2, 10 CFR, "Rules of Practice," and paragraph 3.A.2.c of Amendment No. 3 to License DPR-3 issued to Yankee Atomic Electric Company on June 20, 1961, notice is hereby given that a hearing will be held at 10:00 a.m., e.d.t., on September 20, 1962, in the auditorium of the Atomic Energy Commission Headquarters in Germantown, Maryland, to consider Amendment No. 41 to License Application dated June 29, 1956, filed by Yankee Atomic Electric Company on June 4, 1962, which requests (1) an

amendment to Facility License No. DPR-3 to authorize operation by the facility with a core which is essentially a duplicate of the initial core at levels not in excess of 540 MW thermal, and (2) such further modifications and amendments to Facility License No. DPR-3 and the technical specifications attached thereto as are necessary and appropriate to give effect to the foregoing and to reflect changes authorized by the Commission pursuant to change requests submitted in accordance with paragraph 3.A.2 of the license.

The issues to be considered at the hearing will be the following:

1. Whether there is reasonable assurance that the operation of the facility at steady State power levels not in excess of 540 MW thermal, as proposed, can be conducted without endangering the health and safety of the public, and that such operation will be conducted in compliance with the Atomic Energy Act of 1954, as amended, and the rules and regulations of the Commission.

2. Whether amendment of Facility License DPR-3, as proposed, will be inimical to the common defense and security or to the health and safety of the public.

Notice is hereby given that the report of the Advisory Committee on Reactor Safeguards in this matter will be available for public inspection in the AEC's Public Document Room, 1717 H Street NW., Washington, D.C., prior to the hearing herein scheduled. Copies of such report may be obtained by request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation. If the report is not published and made available prior to the scheduled date of hearing, the hearing will be rescheduled.

Petitions for leave to intervene pursuant to § 2.714 of the Commission's rules of practice must be received in the Office of the Secretary, United States Atomic Energy Commission, Germantown, Maryland, or in the Commission's Public Document Room, 1717 H Street NW., Washington 25, D.C., not later than September 13, 1962, or, in the event of a postponement of the hearing date specified, at such time as the Presiding Officer may specify.

Answers to this notice pursuant to § 2.705 of the Commission's rules of practice shall be filed on or before September 10, 1962, by the licensee.

Papers required to be filed with the Commission in this proceeding shall be filed by mail or telegram addressed to the Secretary, United States Atomic Energy Commission, Washington 25, D.C., or may be filed by delivery to the Office of the Secretary, United States Atomic Energy Commission, Germantown, Maryland, or the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Pending further order of the Presiding Officer, parties shall file pursuant to § 2.708 of the Commission's rules of practice, an original and fifteen conformed copies of each such paper with the Commission.

The hearing will be conducted by a Presiding Officer to be designated by the Chief Hearing Examiner.

Dated at Washington, D.C., this 16th day of August, 1962.

For the Atomic Energy Commission.

HAROLD D. ANAMOSA,
Acting Secretary.

[AA 643.3-s]

PEAT MOSS FROM CANADA

Purchase Price and Foreign Market Value

AUGUST 15, 1962.

Pursuant to section 201(b) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(b)), notice is hereby given that there is reason to believe or suspect, from information presented to me, that the purchase price of peat moss, horticultural and poultry grade, from Atkins and Durbrow Ltd., Vancouver, British Columbia, and Western Peat Moss, Westminster, British Columbia (shipments from Manitoba plant only), Canada, is less or likely to be less than the foreign market value as defined by sections 203 and 205 respectively, of the Antidumping Act, 1921, as amended (19 U.S.C. 162 and 164).

Customs officers are being authorized to withhold appraisement of entries of peat moss from Canada exported by the above-described firms pursuant to § 14.9 of the Customs Regulations (19 CFR 14.9).

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

8:48 a.m.]

Office of the Secretary

[AA 643.3-W]

CEMENT FROM ISRAEL

Fair Value Determination

AUGUST 13, 1962.

A complaint was received that portland cement from Israel was being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that portland cement from Israel is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. The information in this case disclosed that purchase price and adjusted home market price should be compared for the purpose of the fair value determination.

The purchase price was calculated on the basis of the C&F East Coast price of the cement imported in bags and on the basis of the f.o.b. shipping port price of the cement imported in bulk. Ocean freight, inland freight, port expenses, and pneumatic loading costs, as applicable, were deducted; uncollected fuel

tax and internal taxes and import duties refunded on exportation of the cement were added as required by statute in arriving at the purchase price.

The adjusted home market price was calculated on the basis of the ex-factory price, exclusive of the excise tax, and, with respect to bagged cement, exclusive of a special tax on bags. Adjustments were made for the interest cost resulting from the credit terms in the home market; for the difference between the commission paid on sales for home consumption and for exportation to the United States, and for technical assistance and advertising costs. A quantity discount equivalent to that available to all home market purchasers of quantities approximating the quantities exported to the United States was allowed. In the case of the cement exported in bags, the cost of export packing was added to the price for home consumption exclusive of the home market packing cost.

The resulting adjusted home market price was converted to United States currency at the effective rate determined by the application of the dual rate certified by the Federal Reserve Bank for the entire period under consideration to the net proceeds from the exportation of the cement exported to the United States in the proportions applicable in each of the periods under consideration.

Purchase price was found not to be lower than the adjusted home market price during the entire period involved.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] JAMES A. REED,
Assistant Secretary of the Treasury.

OFFICE OF DOMESTIC GOLD AND SILVER OPERATIONS

Organization and Functions

1. **Description of organization.** The Office of Domestic Gold and Silver Operations is in the Office of the Secretary, reporting directly to the Under Secretary for Monetary Affairs. The Office administers gold and silver regulations (31 CFR Parts 54 and 80).

2. **Director.** At the head of this Office is a Director, appointed by the Secretary of the Treasury, who assists the Under Secretary in the formulation of policy regarding the domestic control of the monetary metals, issues Treasury licenses for the acquisition, possession, ownership and use of gold for industrial, professional and artistic purposes, and makes or causes to be made investigations pertaining to gold and to the gold regulations (31 CFR Part 54). He makes determinations as to the eligibility of newly-mined domestic silver for deposit at the mints and assay office and examines or causes to be examined the books and records of the depositors of silver to determine such eligibility. The Director advises the Under Secretary on matters involving the domestic control of gold and silver including the relation-

ship to such controls of domestic and foreign developments as they affect the monetary metals.

3. **Public information submittals or requests.** The public may secure information from or make submittals or requests concerning matters within the jurisdiction of the Office of Domestic Gold and Silver Operations to the Director, Treasury Department, Washington 25, D.C. Attention is directed to 31 CFR Part 93 for specific information concerning the procedures followed by the Office and for other regulations governing submittals and requests.

(Sec. 3(a)(1) of the Administrative Procedure Act (60 Stat. 237); 5 U.S.C. 1002(a)(1))

[SEAL] LELAND HOWARD,
Director, Office of Domestic
Gold and Silver Operations.

Approved: August 14, 1962.

ROBERT V. ROOSA,
Under Secretary for Monetary
Affairs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 9, 1962.

The Alaska Railroad has filed an application, Serial Number A. 057782 for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws. The applicant desires the land for industrial purposes.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Cordova Building, 555 Cordova Street, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

ANCHORAGE AREA

Beginning at a point which bears west 625.29 feet from C ¼ Corner of Sec. 7, T. 13 N., R. 3 W., S.M.; thence west 569.50 feet, thence N. 2°30' W., 111.0 feet; thence N. 56°30' E., 230 feet; thence N. 67°30' E., 108.5 feet; thence N. 79°25' E., 113 feet; thence N. 87°10' E., 161.5 feet; thence S. 1°25' E., 308.7 feet to the point of beginning for this description. Containing 3.2 acres, more or less.

ROBERT J. COFFMAN,
Chief, Division of Lands and
Minerals Management.

ALASKA

Notice of Proposed Withdrawal and Reservations of Lands

AUGUST 10, 1962.

The Federal Aviation Agency has filed an application, Serial Number F. 029657 for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, except for disposal of materials under the Materials Act. The applicant desires the land for a VORTAC facility.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Cordova Building, 555 Cordova Street, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the **FEDERAL REGISTER**. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

FORT YUKON, ALASKA

Commencing at Corner No. 4 of U.S. Survey No. 3191, proceed N. 33°17' W., 410 feet; thence N. 60°11' E., 1,300 feet, more or less, to the point of beginning; thence W., 1,810 feet; thence N. 2,000 feet; thence E., 2,000 feet; thence S. 1,900 feet; thence S. 60°11' W., 220 feet, more or less, to the point of beginning, containing 91.61 acres.

ROBERT J. COFFMAN,
Chief, Division of Lands and
Minerals Management.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

DELEGATION OF AUTHORITY AND ASSIGNMENT OF FUNCTIONS

Pursuant to the authority contained in R.S. 161 (5 U.S.C. 22) and Reorganization Plan No. 2 of 1953, the Secretary's Order dated December 24, 1953 (19 F.R. 74), as amended, is further amended as follows:

Section 1100 is amended and revised to read as follows:

1100. *Assignment of functions.* The following assignment of functions is hereby made to the Agricultural Stabilization and Conservation Service:

a. Farm marketing quota and acreage allotment programs.

b. Administration of the Sugar Act (7 U.S.C. 1100-1183).

c. Foreign assistance commodity procurement and supply.

d. (1) Livestock Feed Program (Public Law 86-299, 73 Stat. 574).

(2) Emergency Feed Program, Disaster Relief Feed Grain Programs and Distress Programs (section 407 of the Agricultural Act of 1949 as amended

(7 U.S.C. 1427); and Public Law 875, 81st Cong., as amended (42 U.S.C. 1855)).

(3) Emergency Conservation Program (Public Law 85-58, as amended by Public Laws 85-170 and 85-766 (71 Stat. 177, 71 Stat. 426, 72 Stat. 864)).

(4) Grazing on Conservation Reserve (Public Law 540, 84th Cong. (7 U.S.C. 1831(a) and 1821(a))).

e. Administration of the International Sugar Agreement.

f. Administration of the International Wheat Agreement.

g. Special feed and grain and wheat stabilization programs (16 U.S.C. 590p (c) and (d), and sec. 124 of Public Law 87-128).

h. Price support programs, except the administration of section 32 of the Act of August 24, 1935 (7 U.S.C. 612c) as supplemented by Public Law 165, 75th Congress (15 U.S.C. 713c) as assigned to Agricultural Marketing Service.

i. Procurement, handling, payment, and related services for section 32 purchase and export payment programs and for purchases under section 6 of the National School Lunch Act for the Agricultural Marketing Service, to the extent practicable.

j. Commodity domestic sales programs, and other commodity disposal programs except as assigned to Agricultural Marketing Service and Foreign Agricultural Service.

k. Supervision and direction of Agricultural Stabilization and Conservation Service State and county offices, and designation of functions to be performed by Agricultural Stabilization and Conservation State and County Committees.

l. Activities under the Strategic and Critical Materials Stockpiling Act (50 U.S.C. 98-98h), except as otherwise assigned.

m. Commodity Credit Corporation functions assigned in accordance with Commodity Credit Corporation by-laws.

n. Soil Bank program authorized by Title 1 of the Agricultural Act of 1956, with assistance from other agencies of the Department, as otherwise assigned, in the conservation practices phase of the conservation reserve program.

o. Determination and proclamation of agricultural commodities in surplus supply pursuant to section 125 of the Agricultural Act of 1956 (7 U.S.C. 1813).

p. The program authorized by sections 7-15, 16(a), and 17 of the Soil Conservation and Domestic Allotment Act, as amended (16 U.S.C. 590g, et seq.) except the naval stores conservation program.

q. Milk, tobacco and other assigned commodity marketing agreement and order programs for commodities other than fruits, vegetables, tree nuts, hops, and anti-hog-cholera serum and hog-cholera virus.

r. Functions relating to agreements under section 708 (7 U.S.C. 1787), of the National Wool Act of 1954, as amended (7 U.S.C. 1781-1787).

Section 1101 is amended and revised to read as follows:

1101. *Reservations*—a. *Reservations to the Secretary.* (1) Designation of counties for Emergency Conservation Programs under Public Law 85-58, 85-170, and 85-766.

(2) Appointment of State ASC Committees.

(3) Recommendations to the President regarding the designation of areas of major disaster under Public Law 875, 81st Congress, and regarding designation of acute distress areas under section 407 of the Agricultural Act of 1949, as amended, because of unemployment or other economic causes; designation of boundaries within areas declared by the President to be major disaster areas or acute distress areas and the designation of areas under all the other programs specified in paragraph 1100d; the execution of cooperative agreements with the State Governors and heads of other Federal agencies with respect to such programs; and final approval of allocation of funds and of national program regulations under paragraph 1100d(3).

(4) Final approval of regulations under section 4 of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590d) and under section 8(b) of such act (16 U.S.C. 590h(b)) relating to the selection and exercise of the functions of committees.

(5) Final action on regulations under the Agricultural Marketing Agreement Act previously requiring approval of the President.

(6) Issuance, amendment, termination or suspension of any marketing agreement or order or any provision thereof.

(7) Designation of marketing administrators and committees administering marketing agreement and order program.

(8) Under section 708 (7 U.S.C. 1787) of the National Wool Act of 1954, as amended (7 U.S.C. 1781-1787), entering into agreements with or approving agreements entered into between, marketing cooperatives, trade associations, or others engaged or whose members are engaged in the handling of wool, mohair, sheep, or goats or the products thereof.

b. *Reservations to the Judicial Officer.* (1) Adjudication functions in proceedings under section 8c(15) (A) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608c(15) (A)).

Done at Washington, D.C., this 15th day of August 1962.

ORVILLE L. FREEMAN,
Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

[Trade Route No. 11]

U.S. SOUTH ATLANTIC/UNITED KINGDOM AND EUROPE NORTH OF PORTUGAL

Notice of Conclusions and Determinations Regarding Essentiality and United States Flag Service Requirements

Notice is hereby given that on August 12, 1962, the Maritime Administrator, acting pursuant to section 211 of the

Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States foreign Trade Route No. 11 and ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said trade route be published in the FEDERAL REGISTER:

Trade Route No. 11 as described below is affirmed as an essential foreign trade route of the United States: Between United States South Atlantic ports (North Carolina-Atlantic Coast Florida to but not including Key West) and ports in the United Kingdom, Republic of Ireland, and Continental Europe north of Portugal.

United States flag sailing requirements for service on Trade Route No. 11 are approximately four sailings per month of freight ships serving the route predominantly. Calls may be made at Hampton Roads in conjunction with sailings on Trade Route No. 11 except for cargo to and from foreign ports on Trade Route No. 6. Additional service may be provided by other regularly scheduled United States flag sailings serving the route in part only.

Freight ships of the C-2 type are considered suitable for operation on the route pending replacement. Replacement freighters for long-range operation on the route should be larger and faster and equipped with adequate refrigerated capacity.

Dated: August 15, 1962.

By order of the Maritime Administrator.

JAMES S. DAWSON, Jr.,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket 11879; Order No. E-18702]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of August 1962.

There has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, an agreement between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA) and adopted pursuant to the provisions of Resolution 590—Commodity Rates Board.

The agreement, adopted pursuant to unopposed notices to the carriers, cancels certain specific commodity rates and names additional rates, as set forth below:

C.A.B. 14827	IATA memorandum	Commodity item	Rates
R-105.....	TC1/Rates 1406.....	2199	Cancel rates from New Orleans to Panama City. 38/27/14 cents per kilogram, minimum weights 45/250/500 kilograms, from San Juan to Caracas. 9 cents per kilogram, minimum weight 500 kilograms, Bogota/Call to Panama City. ¹
R-106.....	TC1/Rates 1407.....	8100	
R-107.....	TC1/Rates 1409.....	0006	

¹ Under the basic agreement, a rate to/from Panama City may be applied to/from Balboa.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the above-described agreement to be adverse to the public interest or in violation of the Act, provided that approval thereof is conditioned as hereinafter ordered:

Accordingly, it is ordered:

1. That Agreement C.A.B. 14827, R-105 through R-107, is approved, provided that such approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication.

2. That any air carrier party to the agreement, or any interested person, may, within 15 days from the date of service of this order, submit statements in writing containing reasons deemed appropriate, together with supporting data, in support of or in opposition to the Board's action herein. An original and nineteen copies of the statements should be filed with the Board's Docket Section. The Board may, upon consideration of any such statements filed, modify or rescind its action herein by subsequent order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

UNITED STATES LINES CO. ET AL.

Notice of Agreement Filed for Approval

Notice is hereby given that the following described agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 75 Stat. 763; 46 U.S.C. 814):

Agreement 8860, between United States Lines Company and Waterman Steamship Corporation (American-flag carriers) and Daido Kaiun Kaisha, Ltd., Iino Kaiun Kaisha, Ltd., Kawasaki Kisen Kaisha, Ltd., Mitsubishi Shipping Co., Ltd., Mitsui Steamship Co., Ltd., Nippon Yusen Kaisha, Osaka Shosen Kaisha, Ltd., Shinnihon Steamship Co., Ltd., and Yamashita Steamship Co., Ltd. (Japanese-flag carriers), operating in the trade from Japan to U.S. Atlantic Coast ports, covers an arrangement under which such carriers agree to form a pool whereby the American-flag carriers and the Japanese-flag carriers, each as a group, will pool all revenue carryings in such trade. The agreement provides that (1) said agreement shall cover a period of five (5) years subject to renegotiation and extension as set forth therein; (2) for the initial period of one year (October 1, 1962, to and including September 30, 1963), the share of the American-flag carriers shall be 30 percent and that of the Japanese carriers shall be 70 percent; (3) at the end of the first pool year, adjustments shall be made by a minimum of two (2) percentage points

per year which will increase the American-flag percentage of the carryings of the two groups, it being agreed that any increase in freight revenue earned by the American-flag group and the Japanese-flag group compared to average total revenue earned by the two groups during the years 1959, 1960, and 1961 will be shared 20 percent to the Japanese-flag group and 80 percent to the American-flag group but with a maximum increase to the American-flag group of 4 percent per year; (4) it is the understanding of both the American-flag carriers and the Japanese-flag carriers that it is their desire that all conference lines operating in the trade covered by this agreement, regardless of flag, should be a party to the pool arrangement, that said group of carriers shall negotiate as a unit with third-flag carriers to arrange a reasonable share of the trade for the said third-flag group, it being the intention of all parties to negotiate the share of the third-flag carriers on the basis of their past performance over a period of years and to include all members of the Japan-Atlantic & Gulf Freight Conference in the overall pool; and (5) a committee comprising the American-flag and the Japanese-flag carriers (groups) will immediately proceed to work out a full pooling arrangement to include all technical details of operations within the framework of the terms and conditions set forth in this agreement, any such further agreements to be subject to approval by the Federal Maritime Commission pursuant to section 15 of the Shipping Act, 1916, as amended.

Interested parties may inspect this agreement and obtain copies thereof at the Bureau of Foreign Regulation, Federal Maritime Commission, Washington, D.C., and may submit within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Commission.

Dated: August 16, 1962.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-2478]

PROFESSIONAL INSURORS AND INVESTORS, LTD.

Notice and Order for Hearing

AUGUST 13, 1962.

I. Professional Insurors and Investors, Ltd. (issuer), a Colorado corporation, 123

Cook Street, Denver, Colorado, filed on November 4, 1960, a notification and offering circular relating to an offering of 215,000 shares of its \$1.00 par value common stock at an offering price of \$1.00 per share for an aggregate of \$215,000, and filed various amendments thereto, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) of the Act and Regulation A promulgated thereunder.

II. The Commission, on June 25, 1962, issued an order pursuant to Rule 261 of the general rules and regulations under the securities Act of 1933, as amended, temporarily suspending the issuer's exemption under Regulation A, and affording to any person having any interest in the matter an opportunity to request a hearing. A written request for a hearing has been received by the Commission.

The Commission deems it necessary and appropriate that a hearing be held for the purpose of determining whether it should vacate the temporary suspension or enter an order of permanent suspension of this matter.

It is hereby ordered, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that a hearing be held at 10:00 a.m., m.s.t., on September 17, 1962, at the Denver Regional Office of the Commission, 802 Midland Savings Building, 444 17th Street, Denver, 2, Colorado, before a hearing officer to be designated later, with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether the terms and conditions of Regulation A have not been complied with in that the issuer failed to cooperate with the staff in furnishing pertinent information in connection with the offering and failed to file a report on Form 2-A.

B. Whether the notification and offering circular filed by the issuer contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, in

1. The statement that 50 percent of the offering will be spent for the purpose of purchasing land and developing small apartment houses in Denver, Colorado, and vicinity.

2. The failure to disclose that the company is not keeping and has not kept accurate and current financial records.

3. The failure to disclose the remuneration of the three highest paid officers and the aggregate remuneration of the officers and directors as a group.

III. It is further ordered, That the designated hearing examiner, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the powers granted to the

Commission under sections 19(b), 21, and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on Professional Insurors and Investors, Ltd., that notice of the entering of this order shall be given to all other persons by a general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard, or otherwise wishes to participate in the hearing, shall file with the Secretary of the Commission on or before September 14, 1962, a written request relative thereto as provided in Rule 9(c) of the Commission's rules of practice.

By the Commission.

[SEAL]

ORVAL L. DuBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 680]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 15, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 65141. By order of August 10, 1962. The Transfer Board approved the transfer to Bay Shore Trucking Co., a corporation, Keyport, N.J., of a portion of Certificate No. MC 108188 issued July 13, 1961, to Rollo Trucking Corporation, Inc., Keyport, N.J., authorizing the transportation of: Brick, crushed stone, sand, gravel, and building materials (not including lumber), between points in Middlesex County, N.J., on the one hand, and, on the other, Cliffwood, N.J., and points within 100 miles of Cliffwood, N.J., in New York and New Jersey. Bert Collins, 140 Cedar Street, New York 6, N.Y., representative for applicants.

[SEAL]

HAROLD D. McCoy,
Secretary.
